## ABOUT US

---

After meeting in a physical therapy office almost 15 years ago, we have been happily navigating life together. Something just clicked, and we've been on an adventurous ride ever since. Morgan is a recent graduate from a master's program, earning her Women's Health Nurse Practitioner (WHNP) degree. She enjoys making others laugh with her ridiculous sense of humor and quick wit. Jason is a hard-working machinist who loves the outdoors, especially fishing and camping. His wonderful sense of humor captures the hearts of all he meets, and he is a most loyal friend. We enjoy cooking dinners together, traveling with our dog, and spending time with family. We look forward to our newest adventure of sharing our lives with a little one.

---

## OUR HOME & PETS

---

We live in a quiet neighborhood nestled in the foothills of Northern California in a one-story ranch house. Our backyard is dotted with pine trees and inhabited by many woodland creatures. Both of us were born and raised here and feel it is an ideal area to have a family of our own. Located near rivers, lakes, and mountains, we are only a couple hours from the ocean. Our home is perfectly centered for any kind of family adventure. Penny, our American bulldog, is the perfect co-pilot for all our road trips. She loves all people, especially children.

## *What Led Us to Adoption*

Adoption has been an option for starting our own family since the beginning of our relationship. We both have struggled with infertility and are unable to conceive ourselves. As we are excited to have a family and become parents, we believe adoption will allow us to realize this dream. Although we understand the journey of adopting a child may be challenging, we are overjoyed to welcome a little one into our lives and offer a life filled with love and support.

**SUBJECT IN SCHOOL:** English, science

**BOOK:** *Harry Potter* (all of them)

# Our Family AND Traditions

Morgan's older sister lives with her family in Oregon. We see our niece and nephew typically every other month, as work and school schedules permit. Holidays are spent together, alternating between California and Oregon. Morgan's parents live just five minutes away and are beyond excited to welcome another grandchild into the family.

Jason was raised as an only child, and his parents live nearby as well. They are overjoyed to be first-time grandparents.

We have close friends we love to spend time with, celebrating birthdays, holidays, and other milestones of life, including the much appreciated weekend.

## DEAR *Expectant Mother*

We cannot tell you enough how grateful we are to have you viewing our profile and considering adoption as a potential plan for your child. Your selflessness is a gift that will be honored for life. The love you have for your baby will never be forgotten as we understand how incredibly difficult and complex this decision must be to make. We want you to know your strength, love, and courage are recognized and appreciated. If chosen as adoptive parents, we vow to love, honor, encourage, support, and provide your child with a safe and loving environment in which to grow. We will ensure his or her heritage is respected and integrated into their upbringing so they may feel the connection to their roots.

We have longed to have our own family for many years, and with the miracle adoption, we can finally fulfill this dream. We want to share with our child the beauty of their history, their birth story, and their birth family as we feel it is important for them to know just how much they are loved.

It is from the depths of our hearts that we thank you for considering us as adoptive parents. Sharing your precious baby with us is a gift we can never repay, but we promise to love and support them throughout their entire life.
