

# Sanvi & Brian

OUR ADOPTION JOURNEY

# about us

We met online in 2019 and have been happily married since 2021. Sanvi was drawn to Brian's kindness, intelligence, and many years as a volunteer firefighter. Brian loved Sanvi's empathy, good looks, and smarts from the moment he met her. We enjoy cooking and trying new recipes - our collection of favorite recipes is growing! We love being outdoors; whether it's dining out, picnics in the park, hiking, or going on walks by the lake. We love music and enjoy listening to a wide variety of music at different venues.

Brian is an attorney who has his own practice. Brian's father started his law practice and they worked together for many years until his recent retirement. Sanvi is a physician at a large hospital and a medical school professor. We enjoy serving our communities and our work is fulfilling.

## OUR HOME

We live in a beautiful city in Colorado, about an hour from Denver. Our family friendly community has excellent public schools as well as numerous lakes, parks and hiking trails. Our spacious home has a large backyard with a garden, flowers and trees. We live near a major university and enjoy the cultural and recreational opportunities. We are walking distance to many amenities including the grocery store and playgrounds. We can't wait to share all these places with our children and have a loving environment for them to grow and learn.

## WHAT LED US TO ADOPTION

We discussed adoption early in our relationship. Sanvi knew she wanted to adopt before she started medical school. While it didn't work out to have biological children, we are very excited to fulfill the dream of adoption and start our family. We realize the trust you are putting in us as you consider placing your baby. We want to raise and support our children to be happy, healthy and create the life they want as adults. Several of our friends have been touched by adoption, some who were adopted and some who have adopted children. We love seeing their happy families.

OUR LIFE  
**together**

**Holiday:** Thanksgiving

**TV Show:** Seinfeld

**Book:** Sherlock Holmes, To Kill a Mockingbird

# OUR FAMILY & traditions

We are close to both sides of the family and see them often, enjoying good conversation, home-cooked meals and board games. Sanvi's parents, brother, and sister live nearby in Colorado. Brian's two sisters live in the Midwest. Brian's dad and his wife live in Florida. We love spending time with them at home and on adventures such as hiking, going to the beach and traveling. We have two nephews on Brian's side of the family, and one niece on Sanvi's. We love going to their soccer and hockey games. It's been so fun seeing their interests and personalities develop as they grow up.

Brian's large extended family celebrates Thanksgiving together annually, a tradition for the past 75 years. Sanvi's extended family lives in India and the U.S. We keep in touch through visits and Zoom. Between us, we have thirty first cousins, so our family get-togethers are getting bigger each year.

Our families are so excited about our adoption journey and can't wait to extend their love to the newest addition to our family.

## dear expectant mother

We are so excited and grateful you clicked on our profile! Having had some emotional times in our lives, we can't imagine what you are experiencing. It means a lot to us that you are taking the time to review our profile. We have wanted children for a long time. We value family, friendship, and community. If you choose us, your child's life will be filled with unconditional love, and they will be surrounded by a large, loving family and lifelong friends. We are close to our families and see our extended families often. We have good friends from each life stage, going back to elementary school. We cherish these childhood friendships as much as our newer friendships. We are excited to grow our family.

We value education, experiences, and lifelong learning. We will ensure your child has the best education, both in school and out of school. We believe education includes emotional intelligence, personal development, and a growth mindset. This amazing child will have the opportunity to explore any interests, but we will definitely be traveling and going to museums and concerts. Our hope is that they love parks, historical sites, the mountains and the beach as much as we do.

Brian enjoys skiing and swimming and can't wait to teach them these fun activities. Sanvi looks forward to baking cookies and cupcakes with them. We are looking forward to the day-to-day experiences, such as milestones, game nights and family dinners.

We will support our children to develop their interests, hobbies, friendships and create the life they want for themselves as kind, responsible and respectful adults. We're happy to share additional information and answer any questions. If you're interested in an open adoption, we'd welcome the opportunity to discuss what an open adoption means to you.

WITH LOVE,

BRIAN AND SANVI
