OUR LOVE STORY

We first met in the third grade, and little did we know we would become the best of friends and get married soon after high school. We then both attended college together and built a strong foundation of love, support, and respect for one another. Through the years, we have maintained our silly, playful nature from when we started dating but also have grown and matured with one another. We have now joyfully been together for 14 years and love our families, friends, careers, and time with each other. Together we share interests in traveling, learning, great food, and spending time with friends. We now hopefully await to be blessed with a child to grow our family and share all the love we have to give.

OUR HOME + NEIGHBORHOOD

We live in a cozy, split-level home in a suburban area of western Pennsylvania. Our favorite highlights of the neighborhood include community events, a community pool, multiple parks, and great local restaurants (one of our favorite things). Additionally, we have a wonderful school district that offers diverse subjects, languages, sports, and instrument lessons. We have lived in our neighborhood for the past eight years and enjoy our cozy neighborhood and surrounding community.

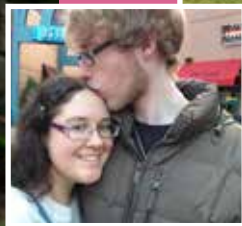

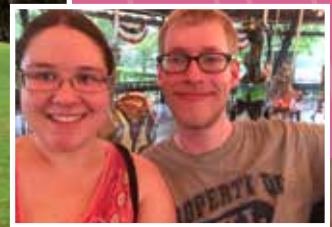

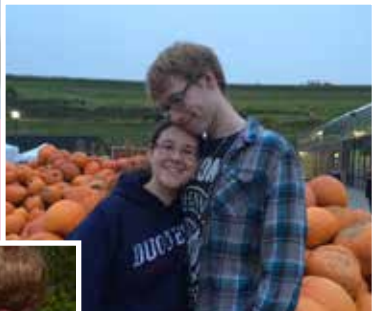

OUR FAVORITE ADVENTURES

Outside of our family vacations, one of our favorite adventures is finding and trying new restaurants around the area. It is always exciting to kick back and chat over some hot food and talk about a particularly crazy week at home or work with the added bonus of not having to cook or clean up afterward. We also like going out and trying new foods with our friends and family, sometimes bringing new take-out to a holiday dinner just to give it a try. Currently, our favorite restaurant is a steakhouse, and we can't wait to take our family there in the future!

OUR LIFE

together

DREAM VACATION: Ireland

HOLIDAY: Fourth of July

TV SHOW: *Scrubs*

SUBJECT IN SCHOOL: History

BOOK: *To Kill a Mockingbird*

OUR FAMILY AND *traditions*

Our family is loving and cozy. Our little bundle of joy will have two loving grandparents (with two in heaven) and three uncles—all excited about and supportive of the adoptive process. Some family members have gone so far as to buy baby toys and items ahead of time in anticipation. They are so excited. We also have a very close-knit group of friends who have been extremely supportive of us and caring during this process.

Our biggest and most loved tradition is spending the holidays together for lunch or dinner (sometimes both). We also enjoy taking family vacations to the beach or new destinations where we can explore and spend time together. For our next vacation, we are hoping to go south to a beach or to the mountains to see some new sites. We are so excited to share that tradition with a little one as well!

**DEAR
EXPECTANT**

mother

Hello, and thank you for taking the time to get to know us better. While infertility has been a trial for us, we cannot imagine the difficult decision you are considering and the uncertainty that follows. Just know that no matter what gender, background, or ethnicity your little one is, we wish to give them a life of love, comfort, and happiness.

We have been happily married for fourteen years and still live with the same spark as when we first met. Sarah works as a registered nurse at a local hospital and specializes in operative care, infant care, and cardiac care. Luke works as an educational support staff for a law firm that assists children with special needs and learning impairments. We are lucky to have an extremely supportive family that is also waiting with equal excitement and joy. We feel very blessed to have this support and cannot wait to share their love with a little one as well.

We wish the best for you and your little one!
