## ABOUT US

We are Kyle and Meghan, and we would like to thank you for taking the time to learn a little about us! We met 13 years ago through a mutual friend. We dated for six years before getting married and have now been married a little over seven years. Kyle is an electrical engineer support coordinator at the city utility company, where he has worked for 15 years. Meghan is a registered nurse and has been in healthcare for 17 years. She is currently an administrator over a home health and hospice agency. Kyle enjoys working with his hands and problem solving; Meghan's passion is caring for people. We both love what we do! We are both outdoorsy and love adventure. We enjoy hiking, camping, four-wheeling, paddle boarding, fishing, boating, and kayaking in our beautiful state. We enjoy traveling, exploring new places, and trying new activities!

## OUR HOME & PETS

We purchased our dream home last year. It's a five-bedroom, three-bathroom home in a quiet community located just 15 minutes away from a large city in Colorado. We have a very open layout with a big backyard and lots of open space inside for activities! We have two Labs, Laila and Buddy, who are very sweet and loving dogs. They enjoy taking walks, camping, and playing fetch. Laila even learned to paddle board last year! Our area offers access to a huge variety of activities. In the summertime, we have our choice of beautiful areas nearby for outdoor adventuring, from water sports to mountain trails. In the colder months, we have access to museums, theaters, art centers, and indoor play facilities.

## WHAT LED US TO ADOPTION

We are unable to conceive a child naturally after two ectopic pregnancies. However, in our hearts, we both know we want nothing more than to be parents. The thought that we could still be parents through the blessing of adoption is incredibly exciting for us. We just want to be able to provide the opportunity for an incredible life and endless support and possibilities to a child. We want to love your baby as much as you do and provide a life you dream of for them.

OUR LIFE  
TOGETHER

**Movie:** Step Brothers, National Lampoon's Christmas Vacation

**Dream Vacation:** Iceland to see the Northern Lights

**Holiday:** Thanksgiving - spending time with family

**TV Show:** Friends

**Book:** One Final Pass

# OUR FAMILY & TRADITIONS

Kyle's family is originally from Nebraska. Most of his extended family still lives there. Kyle's mom and her husband split their time between their home in Florida and their home here in Colorado. Kyle's half-brother lives in Virginia with his wife and their two children. We get together with Kyle's mom a few times a year to celebrate holidays and birthdays. We get together with Kyle's extended family in Nebraska once or twice a year to camp and celebrate holidays.

Meghan's family is originally from Indiana and Colorado. Meghan's mom lives 30 minutes away and is a retired nurse practitioner. We are very close with her mom and get together with her once a month for dinner or an activity. Meghan's extended family lives in Indiana, and we visit them once a year for Thanksgiving.

We both think family is incredibly important. We continue to nurture relationships with our family members even when life gets busy. We've both grown into the people we are because of the support of our families. We are excited to embark on this next journey with their support and love. They are all very excited for us.

## DEAR EXPECTANT MOTHER,

We want to start by saying we cannot fathom what you are going through and how difficult this decision must be for you. We hope you know how brave and strong you are for giving another human being life. Your consideration of adoption to provide this child with a beautiful future is such an incredibly selfless love.

We want you to know our main goal in adopting is to love your child as much as you do. We know you love this baby with your entire being and always will. We know you want to give them the world, and that's exactly what we wish to provide them: to give them a life of love, beautiful experiences, and lots of adventures and happiness.

We know this decision has to be heavy on your heart, but we hope it eases your mind to know we want all the hope, love, support, and success for your child that you want for them. Our wish is to provide a life for them with endless opportunities and to make the future you dream for them a reality.

**WITH LOVE,**

**MEGHAN & KYLE**
