ABOUT US

We are a fun-loving, adventurous, and nature-loving couple who love traveling (We take one or two international trips a year.), camping, gardening, cooking, celebrating holidays, and giving lots of love and kisses to our dog, Milo. Abhishek has secured a career in the software/IT Industry. He is hardworking and passionate about his work. Shilpi has a prosperous career in import/export and asset management in the healthcare industry. She likes to organize the home, is interested in astronomy, and likes to watch the moon through her telescope. She also likes reading, embroidery, gardening, dancing, and music. We are adventurous, which inspired us to try skydiving, rafting, ziplining, jet skiing, and other adventurous sports. We can't wait for our child to join this happy family as well as receive an excellent education with great values.

OUR HOME & PET

We live in a beautiful and peaceful community in Wisconsin. Our home is of exceptional quality in a quiet, private location with beautifully furnished space. It has three bedrooms, a basement, a large backyard, a deck, a covered patio with trees, a view of a pond, and lots of potential to raise a family. Nearby we have many parks, lakes, and attractions that offer amazing sunsets. This area has excellent schools and educational institutions as well. We have a great neighborhood and lots of fun things to do within a short driving distance of the city. We have a cute, funny, friendly, quiet fur-baby, Milo, a small cavachon dog, who loves walks, belly rubs, treats, and playing. Milo is calm and enjoys a good nap.

WHAT LED US TO ADOPTION

It has been our dream to have a family. We tried to have biological children, but after unsuccessful treatments, we feel adoption is the right path for us. This gives us hope that we can still complete our family. Failed treatments can't stop us from believing we can be good parents and provide a loving home to a child. It would be the biggest blessing if we could adopt a child and give them a wonderful life. We always dream of the day when we get to attend school events and extra-curricular activities, eat meals together, play games, read stories, travel together around the world, and play outside with the baby and Milo for hours.

OUR PHOTOS

OUR FAMILIES & FRIENDS

Our family lives in India. Shilpi grew up with a loving mother and father and one older sister. Her older sister is married and has a lovely eight-year-old son. She and her loving husband are doctors by profession and happily living in India.

Abhishek has a father and younger sister. He lost his mother a few years back, but he always has great support from his father. His sister is married and has a lovely four-year-old little princess.

We both have extended family and cousins living in both the U.S. and India. Our cousins mostly live in the east and southeast of the U.S., and we visit each other frequently, especially during Diwali, Christmas, Thanksgiving, and birthday parties where we all get together under one roof and celebrate.

DEAR EXPECTANT MOTHER

To A Loving Mother,

We are very grateful that you looked at our profile. We can't express how excited we are to experience this new journey of life. Having been through some emotional times in our lives, we can't imagine what you might be experiencing. You have great courage, and we are with you in this important time. Do not consider yourself alone.

Our families are very loving and supportive and always paid attention to education. We assure you we will raise a child in the same way, with unconditional love, laughter, good values, a great education, and the freedom to explore their talents and interests. We will bring a positive and loving environment. We will teach our child that life is beautiful, not to take life too seriously, and to be proud of who they are, and we will unwaveringly support our baby in all ways. They will always come first in our lives.

It would be a dream come true for us if you chose us to raise your baby. This will be an opportunity for us to give the baby unconditional love and the best life.

With Love,

Abhishek and Shilpi
