MY LIFESTYLE

I have been in the accounting industry for ten years, and I am fortunate to work for a remote-first company that understands the importance of work-life balance. My interests include spending time with family and going on adventures to the zoo, plays, and downtown, where there are many museums. I also enjoy going to baseball games, either cheering on the local triple A or Major League teams. I also enjoy the outdoors. During the summer, I enjoy swimming in my family's pool. I also enjoy going to state and Renaissance fairs. Reading, puzzles, and board games are something I enjoy during the winter months. I love learning something new and sharing my knowledge with others.

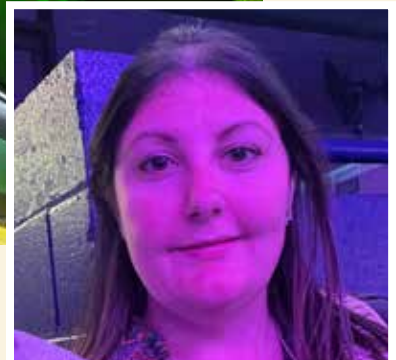

MY HOME & NEIGHBORHOOD

I have lived in the same neighborhood my entire life and live in the home my mother grew up in. I went to the same schools as my mom and even had some of the same teachers as she did. My home is in a central location where all local attractions are easily accessible, such as downtown, zoos, museums, theme parks, and shopping malls. My town is small, approximately 11,000 people, but the schools are newly renovated and the parks as well. The library is within walking distance and just down the block from where I live, as well as the elementary school.

ADOPTION IN MY LIFE

Adoption is something that is very familiar in my family on both my mom's and dad's sides and in both adopting or being adopted. My great grandma on my mom's side was adopted. On my dad's side, his cousin was adopted and another cousin adopted two twin girls. One of my cousins on my dad's side was adopted. I always looked up to my aunt and knew that I also wanted to adopt one day.

my family + friends

I am lucky to live with my mom and dad and a few blocks away from my brother and sister-in-law. My brother and sister-in-law have two horses and a miniature horse that is taken to riding competitions during weekends in the summer. I love going there to watch, and we make it an all-day experience. I have three cousins who live in the same state and two cousins who live outside the state.

During Christmas, we gather together and play games. Our favorite is the game where you have to unwrap a gift with oven mitts and a hat until the next person rolls doubles on dice. I am in charge of wrapping the gift each year. It is also tradition to go through different neighborhoods and look at Christmas lights. During the summer, we host pool parties and go to my brother's house for homemade pizza in his outdoor pizza oven. He also shows big games and movies on his outdoor screen.

my letter to you

First off, I would like to thank you for the courageous decision you have made and for looking at my profile as a potential mom for your child. You will forever be the hero in the story, and I will be sure to let your child know this. Your child is going to know how loved they are each and every day if you choose me.

I know this is an incredibly hard time, and I stand in awe of you for your bravery. This is such a selfless act for you and your child, and I applaud you for your resilience. I pray you are comforted during this process. This is difficult, but you can be assured your child will be loved.

Your child will have many learning experiences as well as tons of fun along the way. The summers will be filled with many trips to the zoo, museums, and parks, and exploring other states, where they will be able to add a pin to the many states they will visit. Along the way, they will be reminded that their story began because of one selfless act made by the hero of their story. Words cannot express how thankful I am for you.
