ABOUT US

Hello! Our names are Mason and Robyn. We met 12 years ago when we both worked at Home Depot. We hit it off immediately and haven't looked back since. We both have a passion for fitness and staying active. We enjoy snowboarding, hiking, softball, and golf. We both work full time. Mason works at a food manufacturing plant. His job is to receive the large shipments of ingredients needed to make the food. Robyn works in tech and is a project manager. We both work hard, so we make sure we play hard too! We prioritize taking trips and love to go places like Hawaii and Disneyland/Disney World. We also make sure to spend time with our families. We find any reason to get together and make memories. We love to throw birthday parties and host for the holidays—any reason to get together and have fun.

our home + pets

We live in a three-bedroom, two-bathroom home. We live close to lakes and national parks and find ourselves hiking, camping, and exploring that area often. Right behind our house is an open desert, and we both have memories of growing up playing in the desert; your child will have the same opportunity (supervised of course!). Where we live, we get all four seasons, so your child will grow up with white Christmases and warm summers with BBQing out back. We have two dogs: Briya is a ten-year-old shepherd mix, and Camel is a seven-year-old staff mix.

what led us to adoption

Ever since Robyn was young, she always said she wanted to adopt. When we sat down to talk about it, Mason was over the moon with the idea of adopting. The thought of opening our hearts and home to a baby and giving them a beautiful life is our idea of the American dream. This isn't something we are rushing into. We have made sure we are in a position in our lives where we can prioritize your baby's childhood. We understand this decision changes our lives. To a degree, it's no longer about us; instead, it's about your child. It's about pouring love and lessons into them so they can grow up to be an amazing adult. We are so excited to take on this new chapter in our lives. We want you to know your future child is going to be surrounded with so much love. Adopting has always been our first choice.

*our families
+ traditions*

We are blessed to live in the same city as both our parents. In fact, we live five minutes away from both of them! Our parents cannot wait to be grandparents, and they plan to be very involved in your baby's life.

Your baby will have two aunts and an uncle, and they are already talking about all the ways they are going to spoil a child. Robyn and her sister have a very special relationship with their aunt. She would take them out of school early and surprise us by taking us to Chuck E Cheese, and your future baby will get similar experiences with their aunts and uncles.

Your baby will be the first grandchild in the family, so as you can imagine, everyone is ready to create magical memories with them.

**EXPECTANT
MOTHER**

It is so apparent that this is a huge decision for you—probably one of the biggest decisions you will make. Go with your instinct. Deep down, you know what's best for you and the baby. Life has a way of working out exactly as it should. It might not feel like that in this moment, but trust that everything happens in perfect timing, as it should.

You are so strong, and one day, your child will grow to an age when they understand what you did for them. They will understand that you gave them every advantage you could. There is no doubt in our minds that they will someday feel the same amount of gratitude toward you as we do today. Thank you for making our dream come true and giving us a little family. We will give them everything we can. We will teach them respect and humility, and most importantly, we will teach them to love themselves so much that they can't help but love others.

With love,

Mason + Robyn
