ABOUT US

Hi there! We are Morgan and Jake, and we are a very go-with-the-flow couple with lots of love to give. Our careers as a toddler daycare teacher and pharmacist allow us to be flexible and patient people. We enjoy playing cards or games, exploring new states and cities, and spending quality time with our family and friends nearly every weekend. Jake enjoys cooking beautiful meals and golfing, while Morgan likes to read and check out thrift stores. We love tending to our yard and house plants, watching football on Sundays, and playing with our cats. We look forward to getting more house projects done and taking our new kayaks out on the river. Our loved ones would describe us as compassionate and loyal people who enjoy all the little things life has to offer.

OUR HOME & PETS

We live in a beautiful, historic home in the city. Our home was built in 1875 and has been completely updated and finished with modern luxuries. We are blessed to live in the historic district surrounded by parks, restaurants, markets, and many studios and creative spaces. In addition to all the walkable amenities, we have a large, fenced-in yard as we own the lot next to our home as well. We are probably the only people in the city who have such a big yard where we have a deck and room for a play set or sandbox or anything else we can imagine. We have four cats. Their names are Bennie, Rocco, Gigi, and Dolly. There is plenty of room for everyone in our spacious three-bedroom home.

WHAT LED US TO ADOPTION

Adoption is something we always wanted to do together. We believe we were meant to take this journey to be parents. Having strong and loving families made this an easy decision as we wish to share with a child this beautiful and welcoming environment. The supportive village waiting for our future baby is like none other. Morgan's aunt is a family lawyer, and it has given her the opportunity to know and appreciate the beauty of the adoption process.

Holiday: Thanksgiving

TV Show: *It's Always Sunny in Philadelphia*

Subject in School: Math

We have an incredible network of friends and family. Morgan has a set of loving parents and a sister and brother-in-law who recently got married. In addition, Morgan's extended family is made up of grandparents, aunts, uncles, and cousins who all mostly hail from the same city. Jake's caring parents reside in North Carolina, and we talk frequently. Jake is an only child with a small family, but he still occasionally visits his aunt and uncle who are just a couple hours away.

Our families take special trips, spend many holidays together, and see each other quite often. We enjoy playing cards and board games, watching different sporting events, and spending time outside around the fire or in the pool. We spend lots of quality time together, and we are very close.

DEAR EXPECTANT MOTHER,

First and foremost, we want to extend our heartfelt gratitude to you for taking the time to read our profile and consider us in this incredibly important decision you are facing. We cannot begin to imagine the emotions and thoughts you are experiencing right now. The strength and courage it takes to consider adoption for your baby are truly admirable, and we deeply respect the love and care you have for your child's future.

We navigated our journey to adoption, and we have come to understand the profound impact this decision will have on your life and the life of your baby. We want you to know we approach this process with immense reverence and gratitude. Our hearts are filled with hope and excitement as we dream of becoming parents and providing a loving home for a child.

We promise to honor your trust in us with unwavering commitment and support. Should you choose us, we will cherish and love your baby unconditionally and provide a nurturing environment where they can thrive and grow. Your strength and selflessness will always be remembered in our family story, and we hope that through open communication, we can build a relationship based on mutual respect and understanding.

With heartfelt sincerity,

JAKE & MORGAN
