

**OUR STORY**

# FAIZA + ADAM

## ABOUT US

Thank you for taking the time to get to know us. We're Adam and Faiza from Florida, and we're excited about becoming parents. We met in 2015 when Faiza started her residency and Adam began his PhD at Johns Hopkins. We quickly connected through humor and kindness and knew we were meant to be. We married in 2018 and have been partners in life ever since. Adam is thoughtful and kind, with a special way of making kids feel valued. As a professor designing brain implants, he's passionate about his work and mentoring his students. Faiza is compassionate and nurturing, whether caring for others, spending time with our nephews, or saving lives as a doctor. We've settled into our cozy Florida home, where we love cooking, quiet evenings, and making memories with family and friends. We can't wait to share all our love and happiness with a child as we start our family!

## OUR HOME + PETS

Our house in Florida is filled with the warmth of our love and the sounds of our laughter every single day! Oh, and the occasional sound of our adorable puppy zooming around the house or squeaking his favorite toy. He's playful, gentle, and full of love—always ready to cuddle up next to us or greet us with tail wags and kisses. We've got a spacious backyard that's perfect for running around, playing fetch, or soaking up the sun. The neighborhood is super family friendly, with parks, trails, and nearby schools. We're also close to fun places like museums and nature reserves. But most of all, our home is a happy, cozy place filled with love—and we can't wait to share it with your baby someday!

## WHAT LED US TO ADOPTION

We were living a happy, fulfilling life in Boston in 2019 and felt ready to expand our family. After learning about our severe infertility, we went through six IUI and six IVF cycles, facing several miscarriages and 13 failed embryo transfers. We even tried donor embryos and surgery for endometriosis. After years of painful IVF treatments and endless hope, now the possibility of adoption has given us a renewed sense of hope. We're ready to fill our home with the love, laughter, and joy of a child. Maybe you're the one who can help make that dream come true for us. Here's to a fresh start—and to hope again.

## OUR FAMILY & TRADITIONS

We are truly blessed to have a large, extremely loving, and supportive extended family. Between us, we have several siblings, cousins, and relatives in Maryland and Boston, all of whom are incredibly excited to welcome a new child into our family. We are especially close to our siblings, speaking with them almost every day.

Our family gatherings are full of warmth, joy, and delicious meals that often leave us in a food coma, accompanied by laughter that hurts our stomachs and brings tears to our eyes. Whether it's celebrating holidays together, enjoying cozy game nights, or sharing big Sunday meals, these moments are the heart of our family. We also love to travel together once or twice a year to explore new countries and strengthen our connection even more.

We can't wait to share all of this love, laughter, and togetherness with a child, and we are so excited to offer a safe, joyful, and nurturing environment. Our hearts are full of gratitude and anticipation, and we promise to surround your child with the same unwavering love and support that has shaped us.

## DEAR EXPECTANT MOTHER,

We haven't met yet, but we already know you possess incredible strength, love, and selflessness. The decision you are considering is one of the most heroic acts anyone could make, giving life and offering the chance for couples like us to become parents. Your courage and compassion inspire us deeply, and no matter what choice you make, please know you are already making an extraordinary impact on the world.

We find joy in the simple things, staying focused on the positives, and supporting each other through life's challenges. Despite our happiness, there's an emptiness in our home that we long to fill. We dream of a day when our house is filled with the laughter and joy of a child growing and thriving. That could be your baby.

We have so much to provide: love, resources, time, and a life full of opportunity. We are fortunate to have careers that provide stability and a nurturing environment. More than anything, we are ready to share our hearts and guide your child through the world with kindness, care, and love. If you choose us, your child will grow up in a home filled with love and endless support.

We understand this decision is incredibly difficult, and we don't take it lightly. If you entrust us with your child, we would be honored to love, protect, and raise them with every ounce of our being. We promise to provide a safe and stable home, surrounded by family and friends, where your child will always know how much they are loved, not just by us but by you as well.

**With love and admiration,**

**Faiza & Adam**
