HALEY & KYLE

www.angeladoption.com

As high school sweethearts, we became best friends at a young age, and we couldn't imagine our romance blossoming any other way. Kyle is a high school history teacher, and Haley is a nurse in a women's health clinic. Kyle is a big sports fan and bookworm and likes to workout. Haley describes Kyle as loving, patient, and hilarious. Haley loves animals and spending time outside. Kyle describes Haley as creative, hardworking, and compassionate. We have a son, Julian, who is ready to be a big brother! He is very sweet and silly with a love of books, dinosaurs, and anything with wheels. Most nights we can be found having dinner with our families, watching movies, or at a school sporting event. We spend a lot of time outdoors and love to take summer road trips and family vacations. We're beyond excited to share these traditions as our family grows.

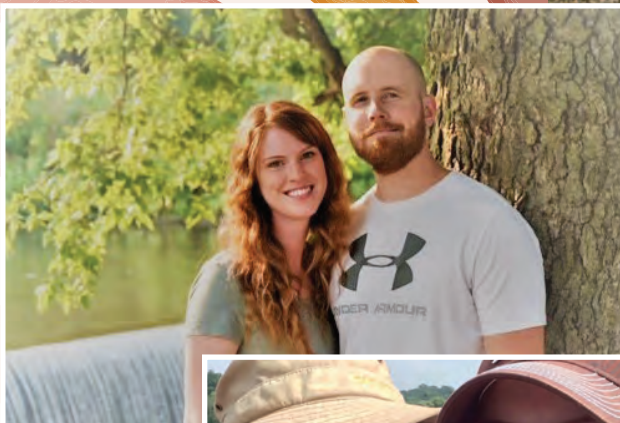

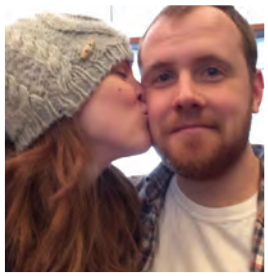

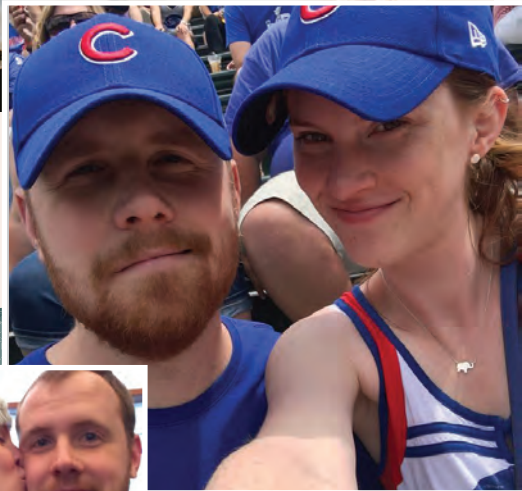

our home & pets

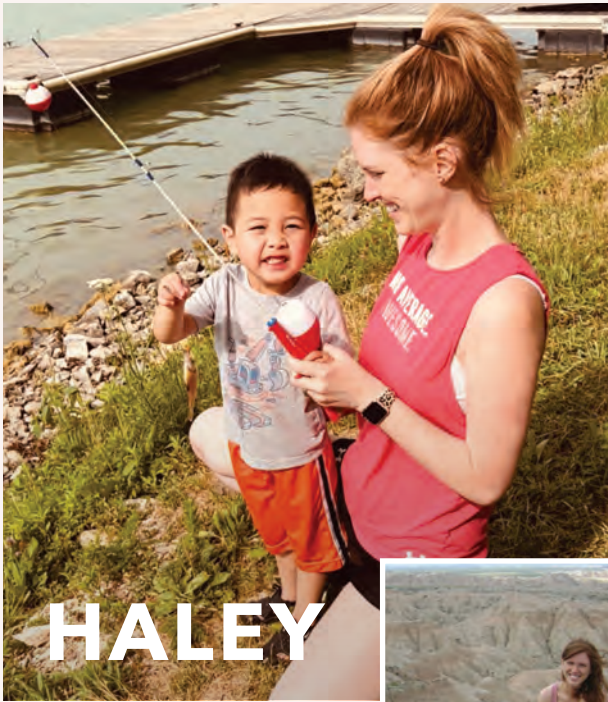

Our home is in a small, rural community built around a lake. We have three bedrooms and two baths, and we have turned our basement into a movie lounge/play area. We live on a large lot with a big garden and swing set as well as plenty of room for children and the dogs to run and play. There's a park next door that neighboring kids like to play in or use to walk down to the lake. We love to fish, pontoon, and swim. Our son loves to walk down to the water with our dogs. Both of our dogs are well trained and love children. They have always been very well behaved and patient with our son from infancy to toddlerhood.

our adoption story

We've always known we wanted to be parents, and prior to our infertility issues, we often discussed adoption as a way of growing our family. We adopted Julian four years ago at birth, and being parents has been the highlight of our lives. Now a few years after the adoption of our son, we know we are ready to complete our family through adoption again.

OUR FAMILY and traditions

We're very close to both of our families, who are within fifteen minutes of us! Haley has one older sister, and Kyle has three younger brothers. Between them all, we have two nephews and three nieces. We enjoy getting together for holidays and birthdays at each other's homes and spending time cooking, playing games, and relaxing on the lake.

We live very close to Haley's parents, and it's not uncommon to find us over at their house for a meal or sitting at the bonfire. We see Kyle's parents almost daily as his mother cares for our son while we are at work. Both of our families usually take a vacation in the summer, where we all stay in a large house together for a week; it's always so much fun! During the summer, we like to exercise, garden, and go to local fairgrounds to watch Haley's nieces and nephew show cattle and horses.

A few of the traditions we would like to continue in our home with our kiddos as they grow are cooking together, eating at the dining room table together, gardening, and camping!

Thank you so much for taking the time to look at our profile. This decision can't be easy, and we understand the huge sacrifice you may be making for your child. We support you in this very difficult decision, and if you would like to choose us as parents, we would like to share this journey with you.

If you decide we would be a good fit to be your child's family, we will raise them with the story of his or her mother; how brave you are and how you made this incredibly difficult decision with only love in your heart. We would like to honor your wishes on how open you would like your relationship to be with your child. We hold so much love in our hearts and are ready to grow our family, and we promise he or she will always have a loving and supportive place to call home. We know Julian will be an amazing big brother and lifelong best friend to his little sister or brother!

Thank you for taking the time to look at this little bit of information about us, and we would love the opportunity to be able to tell you more!
