about us

We are Kaylee and Travis. Kaylee is outgoing and is very much a people person. She loves writing, reading, and interior decorating. She worked in childcare for over a decade and plans on going back to school to become a phlebotomist. Travis is more introverted, but when he gets to know someone better, he becomes very open; he always shows respect and kindness to everyone he meets. He's been in the diesel mechanic world since he was fourteen. He enjoys computer modding, tinkering, and playing video games. We enjoy a lot of activities together as well, anything from panning for gold to watching a hockey game and playing cards with one another.

OUR HOME & PETS

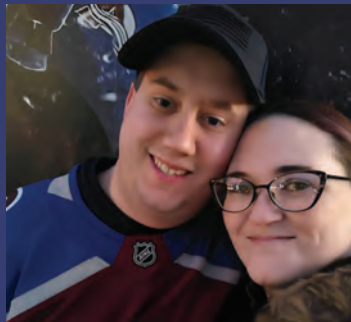

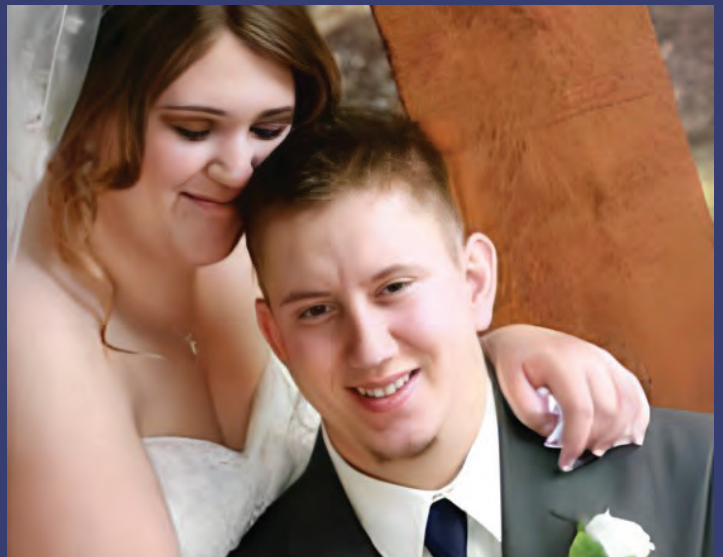

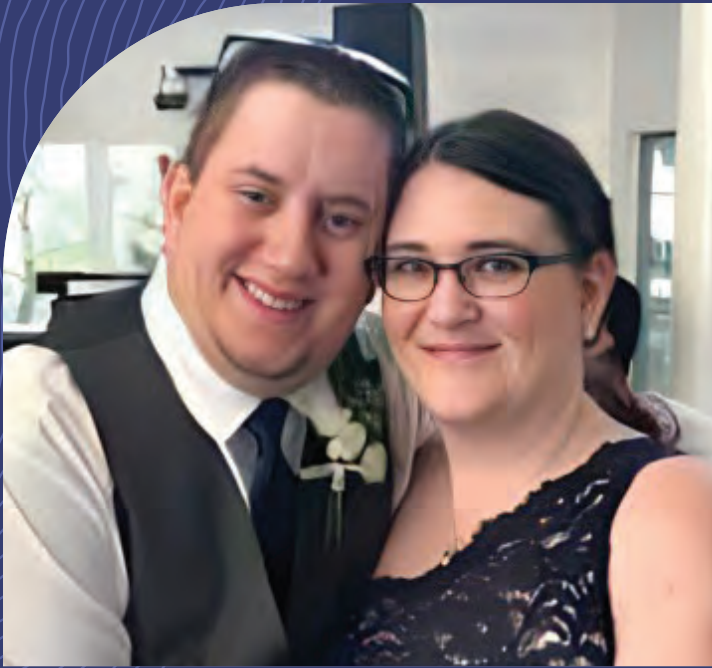

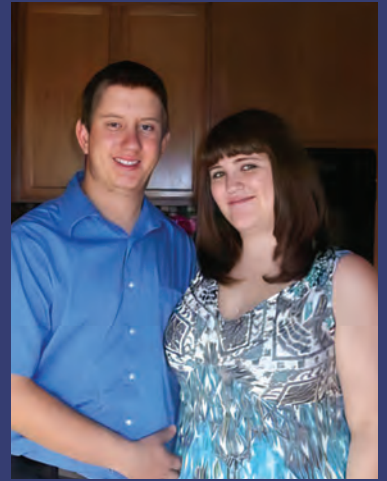

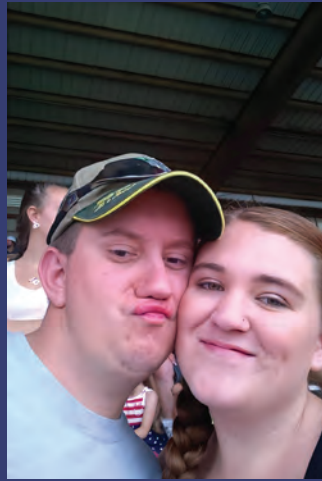

We live in beautiful, colorful Colorado. Both of us were born and raised here. We live in a cozy neighborhood. It has a wonderful park for kids to play and a community swimming pool to swim in during the summer months. There are numerous schools in the area as well as incredible daycare centers. There are a lot of fun places to go and explore in the surrounding areas as well. We have family that lives close by as well. We have two Siberian huskies who are incredibly sweet and playful as well as a very snuggly cat.

WHAT LED US TO ADOPTION

We had been trying to conceive for about three years before we sought out help. After a lot of tests and waiting, we found out Kaylee has endometriosis, and because of that, she wouldn't be able to carry children. We both knew we were meant to be parents and would do anything to make that dream come true. Kaylee's aunt and her brother were adopted when they were both infants. Her other aunt's brother and sister-in-law adopted a little girl five years ago. There is nothing we want more than to raise a child and give them all the love in the world.

OUR LIFE
together

MORE ABOUT Kaylee

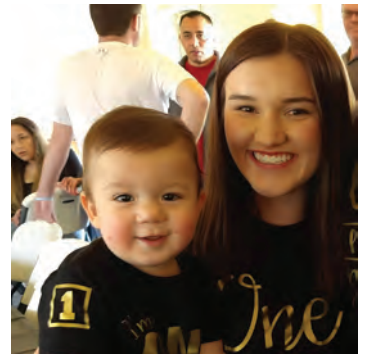

OUR FAMILY & TRADITIONS

Kaylee has a fairly large family. Her mom's father is still living, as well as her dad's parents. She has a younger brother who is married to a wonderful girl. They are expecting their first child very soon. She also has three uncles, three aunts, and five cousins. When everyone is together, we enjoy playing card games and board games. We also like going out to the lake and enjoying nature together. We love to just talk and make each other laugh and smile. We're always there to help one another out whenever needed.

Travis has a slightly smaller family. He has an older brother, a younger sister, and his dad. His older brother has three children, two boys and a girl. His younger sister has two boys and a girl as well. He has one aunt and uncle as well as one cousin. We both love getting to spend time with our nieces and nephews when we can.

Whenever we get the chance to be with any of our family, it's a blessing. We always have a good time when we do.

DEAR

expectant mother

First, we want to thank you. We can't say that enough. Thank you for taking the time to read this. We cannot begin to express how truly grateful and honored we are that you are. Neither of us can imagine what you are going through at this moment. The courage it takes to even think about an adoption plan speaks volumes about what a strong and special person you are. We believe that God has a path for everyone, and for you to even consider us to possibly raise and love your child is nothing short of a miracle in our eyes. You are a true blessing. We have both wanted children since the moment we met one another. We have prayed and prayed for this for a long time.

A little more about us: We met in 2011 and got married in 2013. We went through many tests God gave us throughout our marriage, one of them being infertility. After praying and waiting, God gave us the sign that adoption was meant for us to grow as a family.

We are so very thankful that you chose life. Thank you for not only giving your baby life but for taking the time to look at our profile. We know this must be extremely overwhelming, and we are praying for you. We pray for peace and love to be overflowing in your life, for health and happiness for you, and for the little one growing in your belly.

**WITH MUCH LOVE AND RESPECT,
KAYLEE & TRAVIS**
