

Sean and Victoria
our journey to adoption

ABOUT US

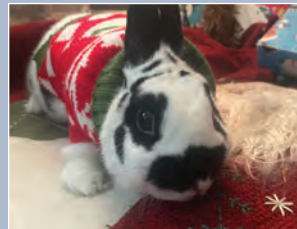

We are a fun-loving couple who enjoys playing with our bunny and puppy, exploring the outdoors together, and cooking. Sean works in event security management, covering many high-profile events. He enjoys working out and tending to the yard. Victoria works for a Fortune 100 tech company as an art director, and she enjoys crafting and creating.

OUR HOME & PETS

We live in Texas in a quiet neighborhood close to downtown. Our house was built in 1947. We renovated it but maintained the feel of the structure, keeping it cozy and inviting. It sits on a very large lot with trees that are over a hundred years old. There are several parks, lakes, and playscapes within walking distance from our house. We love pets and spoil both of ours. We have a terrier mutt named Lucy, who is crazy smart and sweet, and a mini rex rabbit named Kate who loves to snuggle.

WHAT LED US TO ADOPTION

While we've always been interested in adoption, we initially tried to conceive, with little luck. Rather than spend money on IVF or other methods, we felt we really want to put our time, energy, and finances toward adoption. We would love to put all of those things toward providing a happy, healthy, loving home for a child. We want nothing more than to become parents and to pour all our love onto a child.

MOVIE: *cheesy movies like Grease 2*

DREAM VACATION: Bali

SUBJECT IN SCHOOL: History

BOOK: *Pride and Prejudice*

Sean

OCCUPATION: Operations Manager

EDUCATION: Associate degree

RACE: Caucasian

SPORT: Strength training, golf

FOOD: Chicken parmesan, pizza,
brussels sprouts

TRADITION: Dancing during the holidays

MUSICAL GROUP: The Beatles

MOVIE: *Gladiator*

DREAM VACATION: The moon

SUBJECT IN SCHOOL: Philosophy

BOOK: *Sphere*

OUR FAMILY & *traditions*

We both have very small extended families, but we're lucky because both sides live in the same city as we do. We each have an older sister. Sean's parents have passed away, but we are both incredibly close to Victoria's parents. We enjoy having Sunday dinners together, and we go on short road trips as a family to explore small towns near our city. Victoria's mother is from Argentina, so she has an aunt, an uncle, and several cousins who live there; she's been fortunate to travel there many times over the years. Victoria's parents are the kindest, warmest people you could ever meet. They welcome everyone into their home and make everyone they meet feel like family. They've touched so many lives—in fact, Victoria has friends who write and call them regularly. They are already grandparents to our two nieces, and it's the best thing that's ever happened to them. They can't wait for more grandbabies.

dear expectant mother

We understand adoption requires great strength and courage on your part, and if you choose us, we would love to help you through the transition and stay open to any level of continued communication you feel comfortable with. We love children and have always wanted our own. We have been trying without success for over two years. We would love to grow our family and provide a loving and happy home for your child.

We are strong believers in education and embracing diversity, and we hope to provide a rich and varied culture if you choose to place your child with us. This is the greatest gift one person can give another, and we want you to know we will spend our lives doing everything in our power to give your child the best life we know how to give. We think considering an adoption plan is a brave and selfless act, one you've likely chosen because you believe the right people will give your child the best life possible. We thank you for considering us, and if we're chosen, we promise to love your child with all our hearts.
