ABOUT US

Hey there! We are Kyle and Ashley. We met ten years ago in medical school. After Kyle made the first move by obtaining a bike, he joined Ashley in one of her passions (bike riding). Our relationship blossomed, and we have never looked back. Both of us are physicians. Kyle is a dermatologist, and Ashley is an emergency medical doctor. We currently reside in Florida. We have created an awesome support group of friends and family here and live right next door to Ashley's parents and siblings. In 2020 we welcomed our beautiful little girl, Riley, into our family. She is about to be three and has brought us nothing but joy. Riley is extremely excited to have a sibling that does not have four paws.

OUR HOME + PETS

We have a three-bedroom, three bathroom home in the suburbs in Florida. We have a lot of friendly neighbors with young families around us. Down the street from our house is a big nature preserve where we enjoy going hiking with our fluffy baby, Noodle. Riley loves nature and helps hold the dog's leash. Our other fur children are named Butters and Tiggy (two orange cats). Our family is extremely active. We enjoy spending our free time outdoors; traveling; visiting zoos, museums, and aquariums; and all things sports (especially hanging out in both grandparents' pools). We also emphasize the arts and enjoy exposing Riley to different cultures, music, theater, and art.

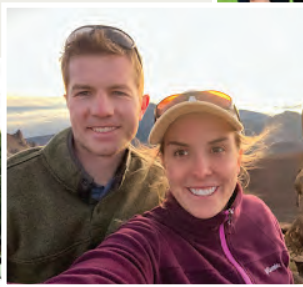

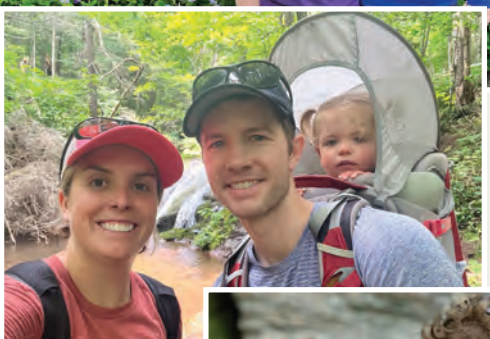

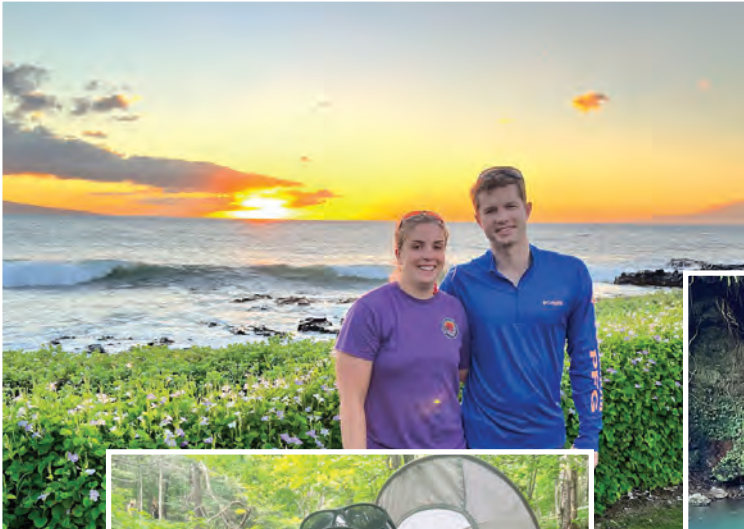

what led us to adoption

Ashley has always wanted to adopt since she was a little girl, and Kyle has been fully supportive and excited about this since we started dating. Our little girl is biologically ours, and we are ready to open our hearts to another child. We feel we can provide a loving, stable, and supportive home for a child. We truly and deeply feel love is what makes a family, and we are excited to expand ours.

OUR LIFE
together

more about **ASHLEY**

RACE: Caucasian

FOOD: Pizza

MUSICAL GROUP: Elton John

MOVIE: *The Gladiator*

DREAM VACATION: Patagonia

HOLIDAY: Thanksgiving

TV SHOW: *Seinfeld*

SUBJECT IN SCHOOL: Math

BOOK: *Sherlock Holmes*

OUR FAMILY + *traditions*

We absolutely love our families, and they play a huge role in our lives. Our families are very diverse and highly value education, with careers ranging from professors, veterinarians, and lawyers to doctors and nurses.

Ashley's family spent most of her childhood overseas, and she speaks German and French fluently. All of our family members live in Florida except for one of Ashley's brothers, who lives in Seattle. He visits frequently though. Ashley has two brothers and one sister, whom she is very close to. She loves her parents, and they play a big part in the upbringing of Riley. We are looking forward to a baby that's on the way from that side of the family as well.

Kyle is also from a big family, with two sisters and one brother. We have two adorable nephews so far from that side, whom we love to spoil. Unfortunately, our grandparents are deceased, but we still get to share a lot of love with the vast number of aunts and uncles from both sides.

DEAR
expectant mother

Just knowing that you took the time to read this far into our profile is an honor. We know this must be an incredibly difficult time full of tough decisions for you, but we are confident whichever decision you make will be made with utmost love. Whether you choose our family or one of the other lovely families, it is hard to put into words how much this means to us that you are making this choice.

We want you to know that if you choose us, we guarantee your child will be loved beyond measure. We will continue to cherish you always for making this selfless decision, and we will make sure our future child understands how much love it took for you to make this decision. We will always honor our future child's background and make sure they understand where they came from.

A child joining our home will be valued, nurtured, encouraged, supported, and, above all else, loved unconditionally by not only ourselves but also our extended families and friends. Our friends and family have been nothing but supportive of our adoptive journey. Your selfless love would allow us to build our loving family and be a part of something so magical. For that, we thank you.

Kyle & Ashley
