OUR JOURNEY TO ADOPTION

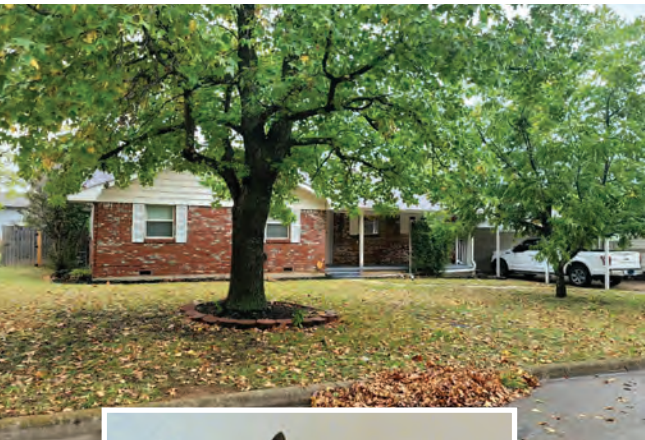

Angel Adoption  
inc.

## about us

We met in 2013 playing a cell phone strategy game and became friends fast. In 2015 we were married, and Megan moved from her state to Antonio's, where we both live now. We both love traveling to new places and going to museums or finding new restaurants to try out. We take our dog hiking, kayaking, and swimming with us. We love having game night, whether it's just us or our family and friends too. We spend a lot of time with family either at the lake or just at home having a cookout.

## our home + pets

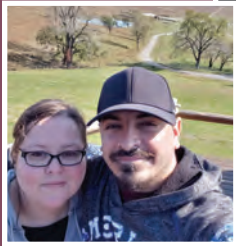

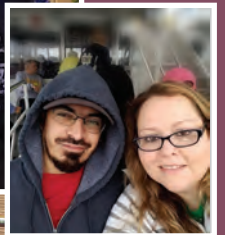

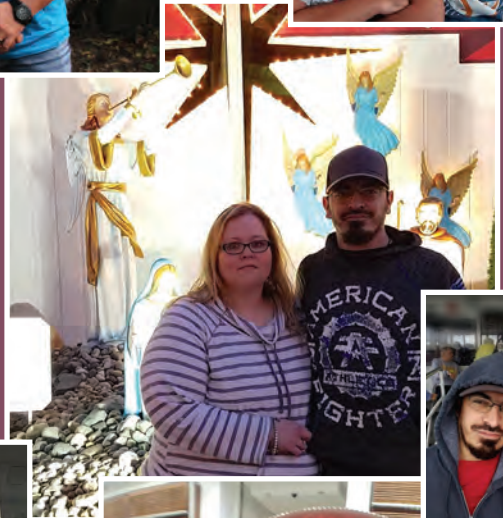

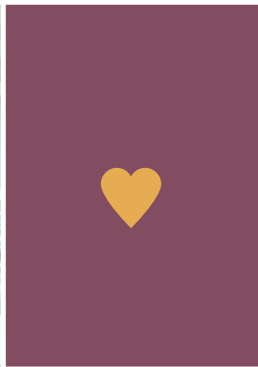

We live on a quiet family street in a small town. Our home has three bedrooms and two baths along with a fenced-in backyard. The school district is great in this area. Less than a 10-minute drive away, our neighboring small town has an outdoor nature center where we hike trails to see the buffalo or swim in the natural spring, which is ice cold and perfect for a hot summer day. We love taking our kayaks to the lake or hiking the trails with Jaxx, our dog. We have two pets: a black cat named Bagheera and a Norwegian elkhound named Jaxx. These two get along and play together better than any cat and dog we've seen. We think our dog thinks he's a cat.

## what led us to adoption

We both come from large families and have always known we wanted a large one of our own. After two miscarriages and talking with our doctor, having biological children would not be safe. Wanting to share our love with a child and not giving up on our dreams of growing our family, we have prayed about other options. Adoption was placed on our hearts, and it would bring so much happiness to our lives to be able to welcome a child into our family.

OUR PHOTO ALBUM

**HOBBY:** Hiking, spending time with my grandpa

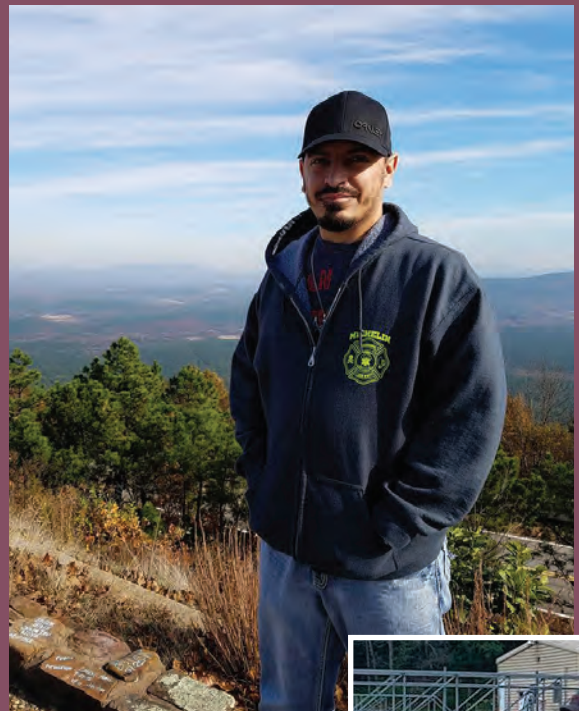

**TRADITION:** Favorite Birthday dinner

**MUSICAL GROUP:** Phil Collins, Marshmallow, Coldplay

**MOVIE:** Sweet Home Alabama, Gone in 60 Seconds

**DREAM VACATION:** Boston to see the USS Constitution

**TV SHOW:** Undisputed on ESPN

Megan has a large family who all live in her home state. She has two sisters, three brothers, seven nieces, and six nephews. We see them often either on vacation or for the holidays. Holidays are a big deal, and we go to three separate places to celebrate. Megan's family loves spending time together and playing games like spoons, peanuts, or sneaky Santa.

Antonio's family is small but still very close. He has three siblings and three nephews. Antonio is very close to his grandfather, who also lives in the same small town and who raised him for a short time. His grandfather loves to garden, and we spend a lot of time with him learning about gardening. We love having cookouts at his parents' property. It is just over an hour away, and we get to see the rest of his family when we are there. Antonio's eldest nephew goes traveling with us and has even been to Megan's home state to meet her family.

We cannot imagine the thoughts and emotions you are going through as you consider an adoption plan. Our hearts and prayers go out to you and your precious baby. Your courage and selflessness in choosing adoption will always be known. We want your child to know where they come from and the amount of love this decision took.

We just want you to know, if you choose us, your child will never go without love and kindness in our home. They will be welcomed and loved by our families, who are just as eager as we are to see our family grow. We will make sure to share with them all the love and fun we had growing up. Our home is filled with laughter, game and movie nights, and cooking and baking. They will know courage and self-worth and be safe and protected.

Thank you for taking the time to read our profile and to consider us in your adoption plan. May God fill you with peace and comfort as you make your decision. We are grateful and will be praying for you and your baby.

With love,

antonio + megan
