

OUR JOURNEY TO ADOPTION

Trevor AND Jessica

ABOUT US

We met in high school but went our separate ways after graduation. Jessica went to college, and Trevor went straight to work. We reconnected three years later, and the rest is history. We have been together for eight years and married for five. Throughout our eight years, we created a wonderful life for ourselves, the only thing we are missing is a little bundle of joy to help make our family even better.

Jessica works in the Healthcare industry, and Trevor is a Plant Operator at a local asphalt company. In our free time, we love to be outdoors; camping on the weekends is our favorite. There is nothing better than hiking the trails or kayaking down the river then ending the night cooking food over the fire! Throughout the week, our focus is on each other; we make it a priority that no matter how busy our day is, we sit down and enjoy dinner together.

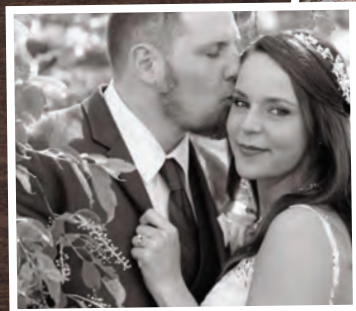

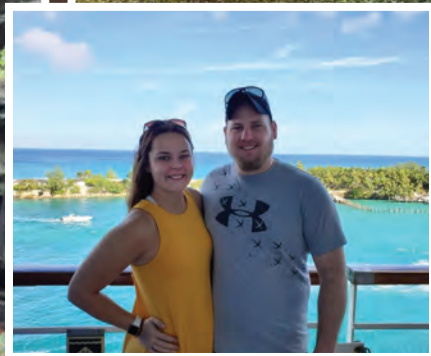

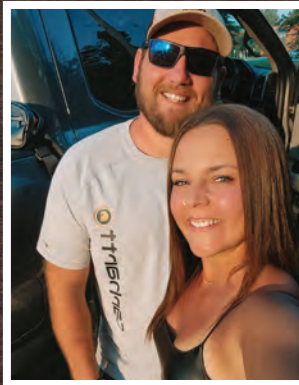

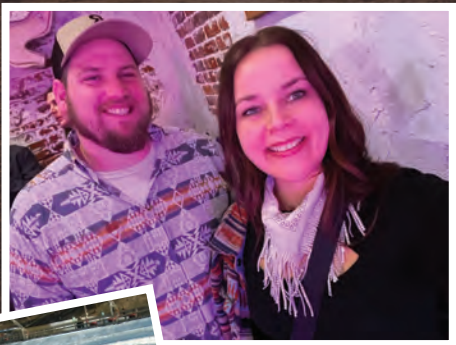

OUR HOME & PETS

We bought our first house six years ago and have been here since. Throughout the six years we have taken the time to make this house our home. We live in the country and love every bit of it. Bonfires in the backyard, watching the sunset on the deck and having enough land to have annual family cookouts. We have been dog parents for five years to two big puppies and spoil them a lot! We absolutely cannot forget about our little chickens in the back coop!

WHAT LED US TO ADOPTION

Jessica found out at a young age that she would not be able to conceive children. She was born with a rare condition where she does not have the vital organs to reproduce. Jessica has wanted to have children from a young age, and Trevor has always wanted to be a dad. When the topic came up for growing our family, we thought there wasn't any better way than adoption. We are excited to grow our family and give a child the best life we can.

sports, Crossfit

TRADITION: Christmas Eve with family

MUSICAL GROUP: Toby Keith

MOVIE: The Santa Clause

DREAM VACATION: New Zealand

HOLIDAY: Fourth of July

TV SHOW: Heart of Dixie

our family AND traditions

Family is something we find extremely important. Holidays are filled with making sure we can see both sides of the family, never missing any birthdays, holidays or any other family events.

Jessica comes from a large family with five sisters and two brothers. On her mother's side, she has many cousins, and family holidays are pretty fun! On her dad's side, it is a small get-together every other year in Tennessee to visit her grandfather with her dad, step-mom and two brothers.

Trevor comes from a large family as well with two brothers and two sisters. All of his siblings have children. We now have eleven nieces and nephews under the age of ten! All family holidays are filled with laughter and fun activities to keep all the kids entertained.

dear

EXPECTANT MOTHER,

Thank you for taking the time to view our profile! Even though we have not met, we wanted to let you know we appreciate your selflessness and courage to consider this tough decision. We wanted to give you a little background on us and help you get to know us better. We are also hoping to give the best life possible to any child we are lucky enough to adopt.

If we are chosen, we will work hand and hand to answer any questions you may have and assure you that we are ready to give your little one everything we can. We have a full community behind us that is very supportive of our decision and eager to welcome a child into all of our family traditions!

Warmest Regards,

Trevor and Jessica
