ABOUT US

We are both easygoing, compassionate, and hardworking individuals. We encourage and support each other to be the best we can be. Nick works as a scale technician. He works with various different types of scales for repairing, programming, wiring, and calibrating.

Noel works at a financial as a deposit operations representative. She assists tellers with various issues and auditing to keep consistency within the organization. We love to watch football and baseball, go camping, spend time outdoors, and hang out with family and friends. Nick loves to be out in nature. Noel loves to cook, go for walks, and go shopping. After work, we enjoy making dinner and spending quality time together watching TV, playing cribbage, or cleaning up. On Tuesdays, we typically do a family dinner. We pick a restaurant and meet up with extended family.

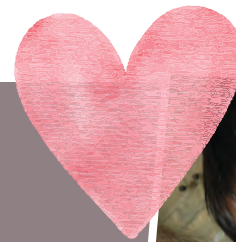

OUR HOME

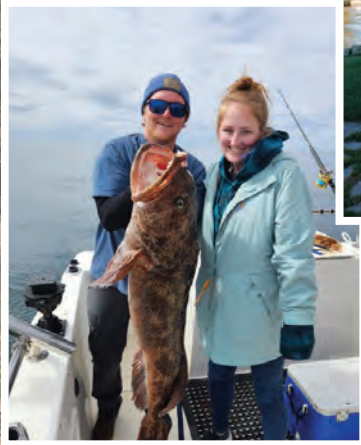

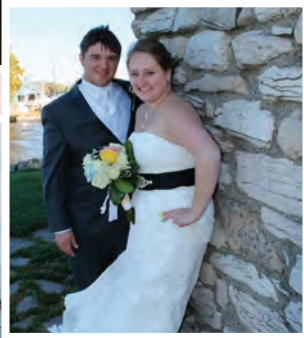

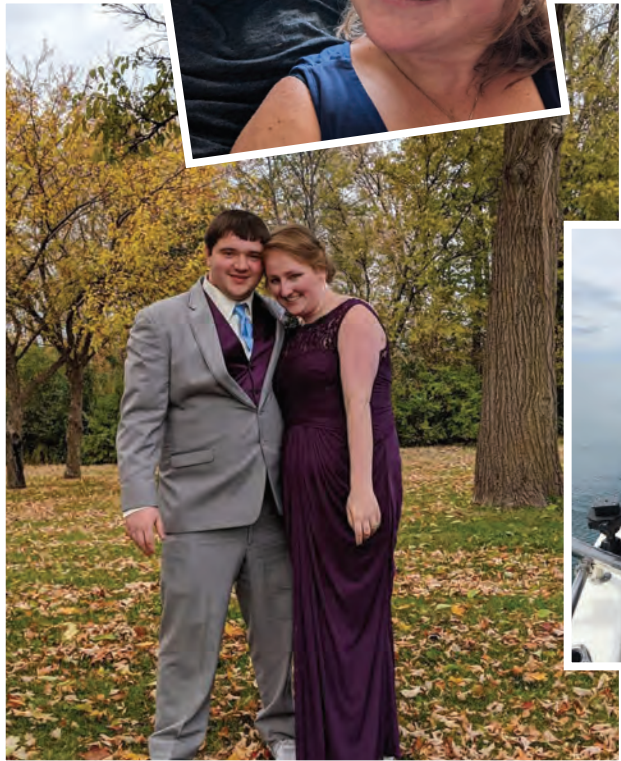

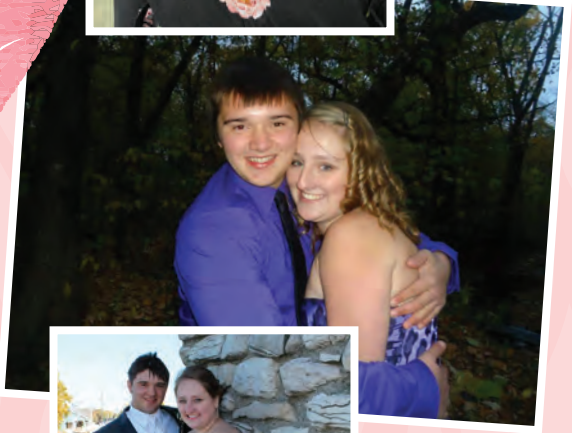

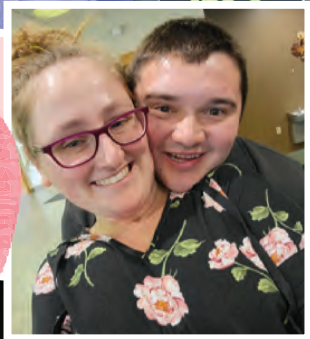

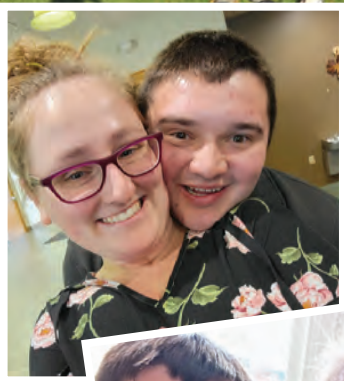

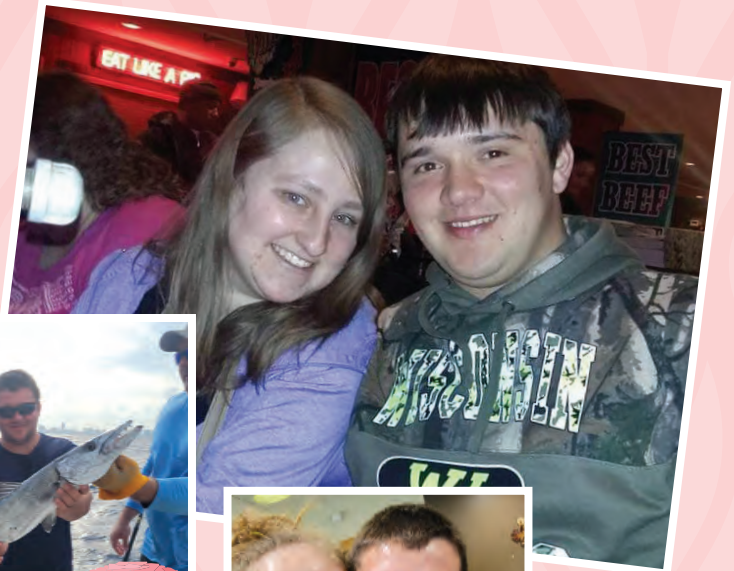

We bought our home almost eight years ago. We live in a quiet part of town near a hospital. Many families in our neighborhood have younger children. In our community, we have various trails for hiking and biking and plenty of areas to fish and swim. We live in Wisconsin, so depending on the season, we can go sledding, go ice fishing, build snowmen, camp, go to the zoo, or enjoy a day at a waterpark.

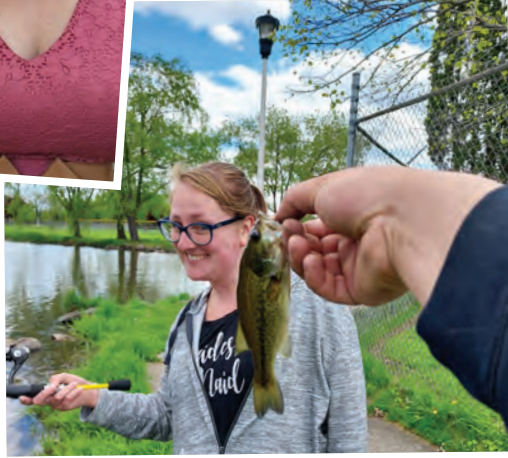

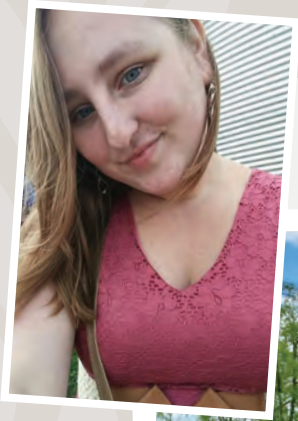

what led us to adoption

We are excited about the opportunity to adopt as it gives us the chance to grow our family and make a positive impact on a child's life. We are inspired by the idea of adoption as we have seen the effect firsthand. In our family, we have a cousin who was adopted at birth, and they were able to take in a teenager as well. To this day, we still have holiday get-togethers and birthdays, and her kids were also able to stand up in our wedding as flower girls.

NOEL

OCCUPATION: Deposit Operations Rep

BOOK: The Blind Side

NICHOLAS

our family + traditions

Noel has three sisters and two brothers. Her parents have been married for 30 years. Our family loves to get together for the holidays at her grandma's house. She loves to cook and spend time with all of her kids, her grandchildren, and their spouses. We enjoy helping Noel's aunt and uncle with various catering events as they grow their business.

Nick has two brothers. His parents have been married for 28 years. He has many cousins as his mother is one of ten children! The family gatherings are very large and frequent. We enjoy going out to dinner with some of them who live in town. It's a regular occurrence to get together with his parents for football games, especially when the Packers play the L.A Rams.

DEAR

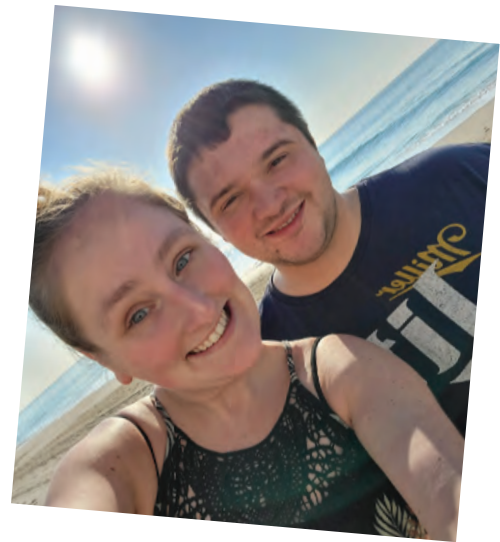

expectant mother

To A Loving Mother,

We know life isn't easy, and difficult choices are hard to make, especially decisions regarding your own flesh and blood. We don't know you; however, you are a strong individual for considering adoption, caring about your child, and wanting a great life for them. We know this process can be long and stressful. We hope we can assist you through this difficult process. We are grateful for you even considering us through this process. We look forward to potentially meeting with you so we can get to know each other.

We met each other back in 2009 and started dating in 2010. We dated through high school, and eventually we bought our first home and got married. We have been married for seven years. We've always wanted to grow our family; however, due to some difficulties, we have been unsuccessful on our own. Through adoption, this dream can become a reality. If we welcome a child into our family, not only will the child be loved by us but by endless other family members.

We have dreamed of starting our family from a very young age. We know as parents we won't be perfect, but we can do everything possible to make the best life for them! Thank you for considering us as prospective parents for your child.

Warmest Regards,

Noel + Nicholas
