ABOUT US

Hi! We are Sara and John. We enjoy traveling, seeking out new and different restaurants to try their cuisine, cooking together, kayaking, and watching movies and shows. We treasure our time with friends and family. We both love to give back or help people, whether it's having food bags in our cars in case someone is hungry and in need or picking up trash on nearby streets. Sara works for a global company in fuel compliance. She loves her job as her team is a second family. John owns his own remodeling company. He loves the work, meeting new people within our community, and seeing the finished projects. We both make it a priority to stay healthy and active and are grounded in our faith. We have so much love to share. We can't wait to become parents!

OUR HOME & PETS

We live in Arkansas. Our neighbors are the best; they're a mixture of older couples and younger couples with children. Our future child will have many playmates and lifelong friends. Our home has a huge backyard perfect for a swing set and playing tag and ball. We have two furbabies: Darby is a Yorkie (10 years), and Della is a bichon frise (8 years); they love children and cuddles. We have a lot of outdoor activities in our area, from hiking in state parks to local walking and bike trails. We're excited to explore these with a stroller or baby backpack. We have a free, world-class art museum and college sports events nearby.

WHAT LED US TO ADOPTION

We've both always wanted to have children. Being parents is incredibly important to us. We have so much love to give and experiences we are excited about sharing as a family. It took us a few years to finally get pregnant only to end very shortly in miscarriage. Several attempts with fertility treatments proved unsuccessful. We decided to try to adopt through foster care, but that path didn't work out for us. We desperately want to be parents and share our love and home. We both have friends who were adopted. This process is very near to our hearts.

OUR FAMILY & TRADITIONS

John comes from a big family. He has two biological brothers, two step-brothers, and one step-sister as well as seven nieces and nephews and seven cousins. Holidays are always a big event. Sara's family is a bit smaller with one sister and two step-sisters.

We visit both sides of the family several times a year, and our parents visit us several times a year too to watch sporting events, attend flea market events, or just visit. Our families and friends are so supportive and loving. They are as excited as we are to be adding a little one to love and cherish to our family and traditions.

DEAR EXPECTANT MOTHER,

We would like to say thank you for learning about us. We want you to know if you choose us, you would be making our dream come true by helping to create a family when we can't do so without the sacrifice of a loving mother. This is selfless and the most special gift anyone could ever give.

We have encountered miscarriage, infertility, and one failed adoption in our journey to create our family, but this has only made our desire stronger. We know we are meant to become parents. We can only imagine your journey; seeking the best option for you and your child isn't easy. Please know if you choose us, your child will become our world. They will know every day how loved, valued, and supported they are. We have prayed so many prayers for children and to become parents, and we've stayed strong in our faith. We will always hold a special place in our hearts for you, whatever decision you make. Thank you for considering us.

WITH LOVE,
SARA & JOHN
