**Bobbi**  
*our story*

## *about us*

We reside in Oklahoma and are parents to two sweet boys, ages 4 and 10. Andrew is an engineer, and Bobbi is a registered nurse who works part time. We love spending time outside enjoying family activities. We have a pool, so in the summertime, we spend a lot of time swimming. We have a pond on our property, and we love to go fishing as well. We love going snow skiing every winter, and we always make sure to visit the beach every year. Spending time with family and friends, traveling, and going on fun adventures is what we enjoy the most. We also teach our two boys the importance of giving back to those in need and always lending a helping hand to those less fortunate. We also believe in God, and we instill a Christian faith in our children.

## OUR HOME & PETS

We live in Oklahoma in an amazing school district that has been voted one of the best in the state. We have a two-story home with four bedrooms and 5 bathrooms. We live on two acres of land that includes a pool, hot tub, and pond to go fishing. There are a lot of kids in our neighborhood, and there's always fun neighborhood activities and kids running around. We have two Labrador's, and they are very sweet and loving and bring a lot of laughter and love to our home.

## WHAT LED US TO ADOPTION

We have wanted to adopt and grow our family for many years now. We absolutely love children, and teaching them and watching them grow has been the biggest blessing in our lives. We had to do IVF to have our second son, and after that experience, we knew adoption was the right path for us to help grow our family. We believe everything happens the way God intended it to happen, and we know in our hearts we are wonderful parents. We both have a lot of love to give and huge hearts, and we know adoption is the path for us.

**School Subject:** Science  
**Hobby:** Traveling, reading, sports, gardening

# *our family &* **traditions**

We both came from amazing extended families. Andrew has an older sister who has three kids. Bobbi has two brothers, and they have six children between them both. Two of the children were adopted, and that has also inspired us to adopt. Both of those boys have added so much love to our family, and we have seen firsthand how amazing adoption can be.

We love spending time together and going on trips with one another. The holidays are packed with plenty of food, kids, laughter, fun, cousins running around everywhere playing, and a lot of love.

*Dear*  
**expectant  
mother**

We want to acknowledge the incredibly difficult and selfless decision you're considering for your sweet baby. Your strength and determination to give your baby the best life possible is the most generous form of love that exists. We cannot imagine what made you come to this decision, and we look at you with such admiration. We will forever be grateful there are people like you in this world.

We have wanted to expand our family and adopt for a while now. Please know, if you choose us, you would be giving us the most precious gift, and we will love and cherish them for the rest of our lives. Our two can't wait to be big brothers. We have spoken to them both about becoming big brothers, and they are excited to have another sibling join our family.

We have a big extended family with a lot of cousins, both younger and older. They are so excited to be getting a new cousin and a new member of the family. Family is very important to us, and we instill the importance of family in our children. Our 10-year-old son has many younger cousins, and he does such a great job playing with them and teaching them. Our four-year-old son loves to play pretend and take care of his little cousins as well. We want you to know we will love and take care of this precious gift for the rest of our lives, and we will not be able to thank you enough if you choose us.

WITH LOVE,

BOBBI & ANDREW
