MY STORY

ABOUT ME

I'm a down-to-earth, caring person. I love being around my family and try to do so often. Both of my parents reside with me, and I love having them around. I have a large sibling group of six brothers and one sister. I have many hobbies. I love to crochet and have a cricut machine that is very well used. I make cards, shirts, and car decals too! I love to cook and bake, so I'm often the designated Thanksgiving chef. I enjoy traveling, and I love Disney World! I take my nieces and nephews almost every year. I work from home as a senior account specialist. I was a nanny for over 16 years in both a live-in and live-out capacity. I love working with children. I was also a daycare teacher for many years before settling in my current career.

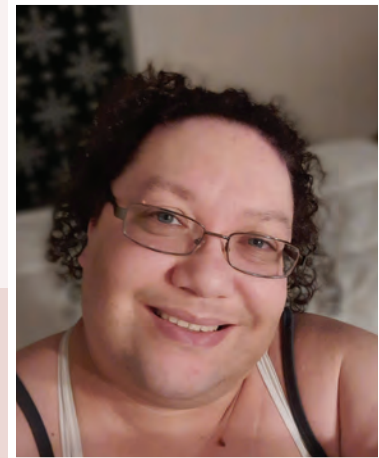

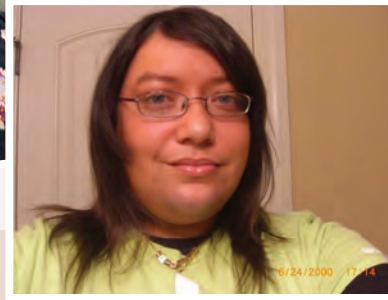

WHAT LED ME TO ADOPTION

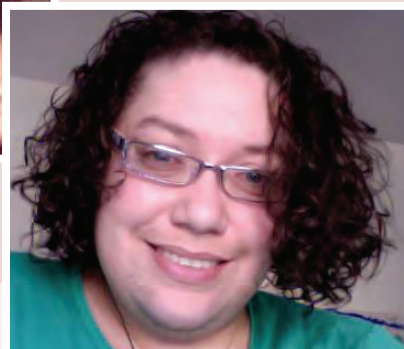

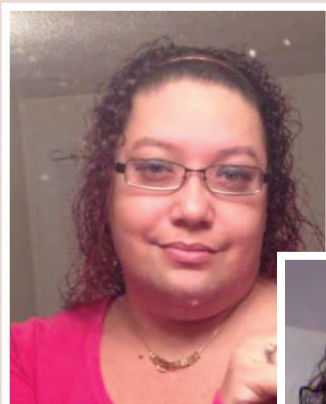

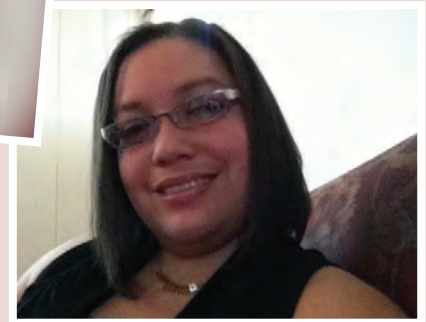

Adoption was always my plan once I was ready to have children. I come from an adopted family. My father was adopted by my grandparents from Germany when they were stationed there. We were always told of my dad's adoption story and have an extended family from it. I have met my biological grandfather and have a great relationship with him and his side of the family. I'm not able to have biological children due to PCOS, and now that I am stable in all areas of my life, I am ready to make my dreams of becoming a mother a reality.

MY HOME & PETS

I have a beautiful home built with love. I own a five-bedroom, 3.5-bathroom home in Delaware. My home and neighborhood is where I grew up; it was my grandparents' home. The neighborhood is quiet and safe. I used to play and ride bikes as a child here, and now my nieces and nephews do. I can't wait to see my future child do so too! I am only blocks away from the local YMCA, which I go to all the time to swim and work out. I have two loving dogs, Joker and Teddie. My mother, father, and 16-year-old niece also live in my home, and they can't wait for a little one to join us!

Crochet, arts and crafts

FAVORITE TRADITION

Opening Christmas gifts on Christmas Eve,
family dinners

FAVORITE MOVIE

Gone with the Wind

DREAM VACATION

Japan to visit the geisha districts

FAVORITE TV SHOW

The Big Bang Theory

SUBJECT IN SCHOOL

Math

my family

AND

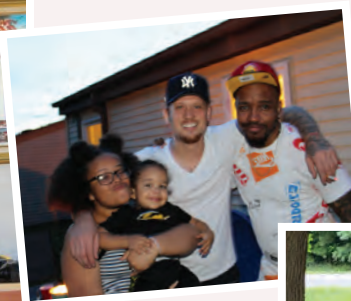

Traditions

I have a very large family. Both of my parents are alive and well. I have six younger brothers and one older sister. Many of my aunts and uncles are still around as well. I have hundreds of cousins!

While we were all together recently due to a family loss, we always make the best of our times together. I usually cook meals, and we just get together and

laugh and have a great time. We do family cookouts and birthdays together all the time. I travel to visit my faraway, but close, family as often as possible. New York is a very frequent trip I make. We visit family in Florida and California all the time too and make Disney trips all the time together.

Dear

EXPECTANT MOTHER,

I cannot imagine the bravery, courage, and sacrifice you are going through at this moment in your life. Considering an adoption plan is something I am in complete awe of. I am truly humbled and thankful you are considering me as a potential mother for your child.

I am in a great place in my life financially. I have a great nest egg and room to spare to expand my family with a baby. I love children and look forward to teaching and loving a child. I can provide a loving home with a huge extended family who will welcome a baby with open arms. I look forward to growing, traveling, and sharing those loving parental moments with a child.

Life can throw so much in your way, but I am here to help support your child through any obstacles that may come around. I will give your child every opportunity to grow with anything they wish to pursue: sports, dancing, or any possible dream they wish to have in life. I hope to give them a chance to be who they wish to be with only love, honor, and full support.

If you make my dream of becoming a mother come true I am open to any level of continuing relationship you care to have. I will show nothing but respect for whichever form of adoption you would like. Again, I truly thank you and appreciate your consideration and possible choice for parenting your child. I am in awe and admiration of your complete strength in this emotional journey.

With respect and love,

Erika
