GROWING OUR FAMILY

ABOUT US

We are Nick and Gabby from Utah. Nick is hardworking, dedicated, and a big kid at heart. He is fluent in Spanish and Chinese and uses his language skills in his occupation as a detective. Gabby is patient, goal oriented, and a self-proclaimed great dancer. The Army brought us together, and we got married in 2011. We have loved spending the past 12 years together. In 2019 we moved into our forever home in a safe community with great neighbors, where our two daughters have gained many friends. A typical weekend with our family would include a hike, family board games, or a game of pickleball (followed by homemade treats and a movie night). We strive to maintain a healthy physical, mental, and emotional lifestyle, and we support each other through the good and the challenging times. We love the memories our family has made and look forward to creating even more with our future children.

OUR HOME & PET

We live in a spacious two-story home with our two daughters and a well-trained goldendoodle. Our home was built in 2019 in a growing development. We have watched our neighborhood flourish with amazing families and plenty of other kids. Our neighborhood is very safe and plans events such as block parties, children's entrepreneur fairs, and Easter egg hunts. There are various amenities in our neighborhood, such as a gated pool and various parks. We live five minutes from the closest shopping center, library, and splash pad.

WHAT LED US TO ADOPTION

In our house, we love deeply and have felt the desire to share that love with another baby. Adoption has always been a topic of conversation in our home, mostly because we stand in awe of courageous birthmothers. We view adoption as a beautiful process that allows families to grow. Families are built in all different ways, and adoption is how we would like to continue to grow ours. We do not take that responsibility lightly and would be honored to bring a child into our close-knit family.

OUR FAMILIES &

TRADITIONS

Family is important to both of us. Nick's family is originally from California, and Gabby's family is from Wyoming. Many of our family members have moved nearby in Utah, and we regularly see cousins and grandparents for dinner, holidays, and birthdays. Our family members frequently come to watch our children's musical performances, sporting events, and school events. The extended family is excited to add another member to our ranks!

OUR LETTER TO A

LOVING MOTHER

Dear Expectant Mother,

We are so glad you made it to our profile. We want you to know we have so much love and respect for your choice to carry this baby into the world. Pregnancy is one of the most selfless acts, and we thank you for being brave enough to get here.

This is our first time adopting, and while this wouldn't be our first child, we are looking forward to having a lot of firsts with this baby. We know our daughters would make the best big sisters. Our hearts have been overwhelmed with joy knowing you would read our profile. Right now we are strangers; we can only imagine how hard it must be to trust someone you don't know. We promise we are equipped to provide unconditional love and support to this baby. They will never question their identity or self-worth. We want to give you the confidence that if you choose us, all their needs will be met on an emotional, physical, and spiritual level.

It's obvious that you are a loving and compassionate individual just by considering adoption. We are hopeful you consider us to be a part of your journey. Thank you for reading about us, and we wish you the best in finding the family you are looking for.

With Love,

NICK & GABBY
