## about us

We are Chance and Ashlee from Texas. Chance is hardworking and caring and is always making people laugh. Ashlee is dedicated and thoughtful and takes pride in taking care of others. We met back in 2013 and got married in 2018 when we both finished college. Chance has been in the oil/natural gas industry for 14 years and is now the area foreman for a natural gas company. Ashlee has been working in the physical therapy/healthcare industry for 10 years and is now the Director of Rehab/PTA for a nursing home. We cherish and prioritize spending time with our family. We also love spending our free time outside fishing, traveling, or cooking out on the grill. We cannot wait to share these moments with our future children.

## our home + pets

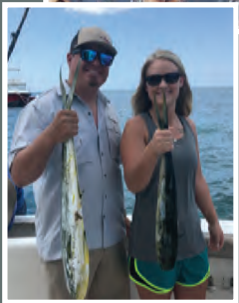

We live in a small town where everybody knows everybody but are only 45 miles from the bigger city. Our small town has two rivers that flow through town and a beautiful city park. The house we have lived in for the last two years was built in 1907, has so much character, and is perfect for building a family. We have a nice covered patio next to our tennis court and a kids playhouse. Our future children will have three fun and extremely loving dogs along with one indoor cat.

## what led us to adoption

We have always discussed the possibility of adoption. After struggling with infertility for the last four years, we felt that God was calling us to actually pursue it. Since making this decision, we have felt nothing but excitement and are overjoyed to grow our family.

- HOLIDAY:** Christmas
- TV SHOW:** Yellowstone
- SUBJECT IN SCHOOL:** Math

We both have fun, loud, and caring families. Ashlee’s mom, stepdad, three siblings, grandparents, and one niece along with Chance’s mom and stepdad all live in the same town that is two hours away. Ashlee’s dad lives one hour away. Chance’s dad, stepmom, most siblings, and four nieces and nephews live within 45 minutes. We also have one more niece and two more nephews who live three to five hours away.

Both our dads live on a lake where we have multiple family gatherings all throughout the year. These gatherings include fishing, swimming, and spending time around a campfire. There is also a lot of family time spent on the family ranch.

Ashlee’s grandmother has a cabin up in the mountains of New Mexico where we all love to gather and play games or cook out on the balcony while enjoying the views of wildlife and maybe even some snow if we’re lucky. Both families are so excited to add a new grandbaby, cousin, and niece or nephew to these gatherings!

We are having a difficult time putting into words how grateful we are that you are considering us for your baby. It takes an extremely strong, selfless, and brave person to make the decision you are making.

If you were to choose us, we want you to know your baby will be well taken care of, have a life full of opportunity, and have a huge family full of love and support. We are both well developed in our careers and financially stable. Your child will grow up in a small town with lots of outdoor activities, such as fishing at the local rivers, playtime at the park, and enjoying the family ranch.

We pray for God's guidance while you make this decision. We would be so excited, honored, and dedicated to giving your baby a life full of adventure, love, and knowledge.

With Love,  
chance + ashlee
