## *about us*

Hello! We are Nick and John. We met in 2021 and have been inseparable ever since. John is a big kid at heart, with a very humorous and outgoing personality. Nick is more type A, with a loyal and outgoing personality. John is a seventh degree black belt in Taekwondo and currently instructs at two different organizations. Nick grew up in an Italian household and loves to cook. We truly are the best of friends and love spending as much time together as we can. John is a sales engineer selling to the industrial market, while Nick works at a local university for student success. Both of our jobs allow a lot of flexibility and are family oriented. We love spending time with our family and friends and are blessed with an amazing support system. We love to travel and experience new places, explore different restaurants in our city (we're both huge foodies), play sports, and spend quality time together!

## *our home & pet*

We live in a diverse and historic part of town with excellent school districts. We are very close to the city, where there is always something going on for families. We are also incredibly close to various parks and attractions, such as the zoo, aquarium, history museum, and art museum. In our home, you will find countless pictures of our friends and family. We also share our house with our nine-year-old chihuahua, Butters. Butters is a loving and protective companion who absolutely adores children.

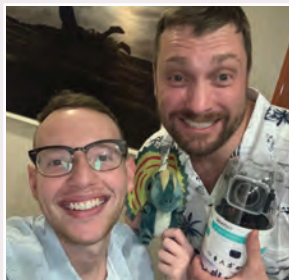

## *what led us to adoption*

From our very first date, we shared our love for our family and friends, especially how much we adored being uncles. We both discussed how we always imagined having children of our own, even if we were not able to do it biologically. We both come from loving and supportive families and want to provide that for our child. We have built an amazing life with each other so far and cannot wait to become parents. We will embrace our child and their culture while providing a loving and supportive environment.

- Subject in School:** English

## OUR FAMILY AND

# *traditions*

Nick grew up in the Midwest and was raised by two loving parents who are still married. He is the youngest of three siblings and is very close with his brother, his sister, and their spouses. We have a nephew and niece on Nick's side. Nick grew up with a large extended family with his dad being one of eleven children. Nick is incredibly close to his mother's side of the family, who is of Italian descent. We still do Sunday family dinners every week with his mother's family.

John also grew up in the Midwest and was raised by two loving parents who are still married. He is the oldest of three siblings and is very close with his two sisters and brother-in-law. We have a niece on John's side. John also grew up with a very large extended family with his father being the oldest of ten children. John's extended family is incredibly close and is always looking for a reason to get together!

Our families get along great and get together often. Even though holidays sometimes get a bit stressful with so many events, we are lucky to have our family so close by!

## *dear expectant mother,*

We are ecstatic to meet you! We cannot begin to explain how grateful we are for you reading our profile and considering us. The sacrifices you have made and continue to make are nothing short of miraculous and selfless. We would love to be here for you during this time and offer any support we can should you choose us.

We have a lot of love to give and are surrounded by even more of it every single day. Our friends, who are family, are an incredible support system, with the majority of them having kids themselves. We plan to have our child raised with many built-in best friends and the most amazing individuals we share our lives with. Our future child will also be supported by the most loving aunts, uncles, cousins, and grandparents.

We will be supportive, loving, caring, and loyal parents who will provide a child with a safe home that will allow them to grow. We both were raised to follow our passions, and we cannot wait to instill that in our children as well. We want them to grow up feeling comfortable expressing their passions while also experiencing different cultures. We will always be in their corner, even when the world may seem lonely. It has been a dream for both of us to become parents, and we appreciate your consideration for making our dream a reality.

*With Love,*

*Nick & John*
