# about us

We are Cristina and Fabio. Cristina loves spending time with her cousins and family. She loves to walk her dog and works at a gourmet market part time as customer service and a cashier. She will have plenty of time to spend with your baby and looks forward to becoming a mother. Although she is an only child, she's close to her cousins and extended family as well as her parents. Fabio loves to cook and try new recipes, especially ones he discovers when traveling. In his free time, he enjoys fixing up the backyard and planting vegetables in the summer. In the winter, when he is not outside, Fabio loves doing puzzles, reading, and collecting crystals and stones. Fabio loves his work at a gourmet market as a grocery manager. We love spending part of the summer with his parents and his family in Italy.

## *our home and pet*

We love that our area has all four seasons! In the summer, we spend lots of time on our patio cooking for family and friends and playing corn hole. We love barbecuing outside and then roasting marshmallows around the firepit. We live in a wonderful neighborhood full of families, and we love to visit with them when we take our dog on nightly walks. Our neighborhood is a great place to raise a family; there is also a school nearby and a church. We have an adorable shih tzu dog, Toby, who has been with us for six years. He is a loving boy that loves children and other dogs. He is very gentle with children and loves to snuggle and play.

## *what led us to adoption*

After being together happily for many years, we weren't able to have a child. As an adoptee, Cristina has firsthand experience, knowledge, and gratitude for the adoption journey. Cristina was adopted when she was two years old. Her parents are kind and loving parents who can't wait to become grandparents. Cristina's mom is from a family of ten, and Cristina's dad is from a family of four. All are married with children, so there are lots of cousins for your child to get to know.

# + traditions

Cristina is an only child but has a lot of cousins her age. Fabio has two sisters and one brother, and all are married with children. Fabio's parents are also loving and can't wait for us to become parents.

We love spending time with family and do as much as we can. There is nothing more important to us than our families, which is why we want so much to become parents. We want to share this closeness with your child and have them join us on our many activities with our family.

During Christmas and Easter holidays, we go to church as a family since we are Catholic. We celebrate our holidays with our uncles, aunts, and cousins. We prepare dinner together and enjoy playing games, laughing, and sharing the traditions we grew up with.

**To a loving mother,**

We know you have immense love for your child, and whether or not you choose us as parents, we respect the difficult choices you are making and wish you peace in the months ahead. We cannot wait to make our hopes and dreams of becoming parents a reality. We both love children and can't wait to become parents. We would like to reassure you that your child will be loved and cherished as they grow.

We treasure time with family and want to include your child in the activities we do together. We would love to have an open adoption so your child will grow up knowing your love for them, and you will see how loved and cherished they are by us. We cannot thank you enough for considering us as potential adoptive parents for your child. Thank you so much for allowing us to share our lives with you.

If you choose us, please know we will raise your child with lots of love, and we will help them reach their dreams and the goals they set for themselves. We want so much to become parents, and we thank you for considering us. Whatever decision you make, we know it will be the right one for you and your child.

**With Love,**

*Fabio and Cristina*
