ABOUT US

We are Natasha and Mohsin. We are originally from Pakistan, where we met and got married over ten years ago. Since then, we've made Texas our home for the last eight years. Natasha likes to stay busy with a number of arts and service projects, and Mohsin loves a quiet afternoon at home with a good book or to watch a game of cricket. Natasha works in the energy sector, mostly from home, and she loves the flexibility. Mohsin works as a technology sector consultant. We love trying different cuisines and spending time outdoors: pickleball, hiking, traveling to explore a new city on foot, or just walking around our neighborhood parks that are a few blocks away. Family is very important to us, so we often get to have our parents, siblings, and friends who are like family visiting us from around the world.

OUR HOME

We live under ten minutes away from the center of the city. Living close to parks, an arboretum, sports facilities, restaurants, and other activity options like theaters and museums is something we love. Our home is a three-level, townhome-style house with a "secret garden" patio hidden away next to it. We live at the end of a private shared driveway with seven other houses and know all our neighbors well. Natasha also volunteers with the homeowners association. The city has recently invested a lot in developing family-friendly recreation spaces and activities in and around our neighborhood, which we are so grateful for!

WHAT LED US TO ADOPTION

We have always dreamed of being parents and having our own family. We have struggled for some time with infertility challenges but faith is important to both of us so after many years of waiting, praying, and exploring treatments, we decided the time was right to focus our efforts on building our family through the gift of adoption. This is our first time going through the process of adoption, and we are learning so much and feel so humbled at the process and grateful for the sacrifice and efforts that go into building families. We can't wait to share our lives with a new member of our family!

OUR PHOTO ALBUM

Hobby: Reading, political analysis, psychology

Family Tradition: Eating meals together with family

Movie: *Moneyball*, *Jerry Maguire*

Holiday: Christmas

TV Show: *Ted Lasso*

Subject in School: History

Book: *Black Swan*

OUR FAMILIES & TRADITIONS

We are both the oldest of three children in our respective families and are very close to our immediate families and many members of our extended families who live around the world. We often make multiple trips every year to visit our families and try to tie in any work travel that we do with quick family get-togethers as well. Once a year, we aim to meet with our families, often over a holiday, to catch up, explore a new place, and all be together.

Natasha has a younger brother and younger sister, both of whom are married and live in different states. Natasha's brother has a six-month-old son everyone is crazy about. Natasha's mother lives in another state but visits often for long periods of time. Natasha's father lives in Pakistan, so we try to make trips every year to spend time with him.

Mohsin has two younger brothers, one of whom is married and has a ten-month-old son who is equally adorable and mischievous. Both Mohsin's brothers live in Germany. Mohsin's parents visit us in Texas every year and stay for extended periods of time.

OUR LETTER TO A

LOVING MOTHER

Dear expectant mother,

We feel humbled that you would consider us to be your baby's parents. We do not fully understand what you are going through or the experiences or circumstances that have brought you to this decision, but we would be so grateful and honored if you decide to trust us with this precious gift. While we don't know you, we do know you are courageous and love-driven and can see a bigger picture.

We are faith led and believe there is a bigger story we all have unique roles to play in. We have faced many life challenges individually but have been so grateful to face challenges as a couple together. This has helped shape our belief that hurdles in life should be approached with faith, love, empathy, and patience and, most importantly, as a family. That's the environment we hope to share with your baby should you choose us to be their parents.

As we prayed about, thought about, and discussed the decision to become adoptive parents over many years, we realized you have a much larger and important decision to make for yourself and your baby, so we pray for your peace in making the decision, whatever the outcome.

With love,

NATASHA & MOHSIN
