# about us

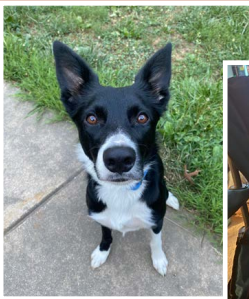

We are Keegan and Lindsey! We started dating in 2019 after meeting through mutual friends and have been married since 2022. We both absolutely love meeting new people and feel fortunate because both of our jobs encourage us to constantly interact with new people. Keegan is a pharmacist who loves finding ways to help his patients. He also loves woodworking and is always looking for new things to build. Lindsey is a fourth grade teacher who loves seeing the spark as her students learn new things. She also loves reading and gardening. Together, you can normally find us doing something outside or spending time with our extended family. We have two nephews we just adore. We all live very close to each other, so creating family traditions with them is something we are so excited about. In addition to being a pharmacist, Keegan has a farm where we have the opportunity to raise cattle. Lindsey has loved taking care of the bottle calves we've been lucky to have.

## *our home and pets*

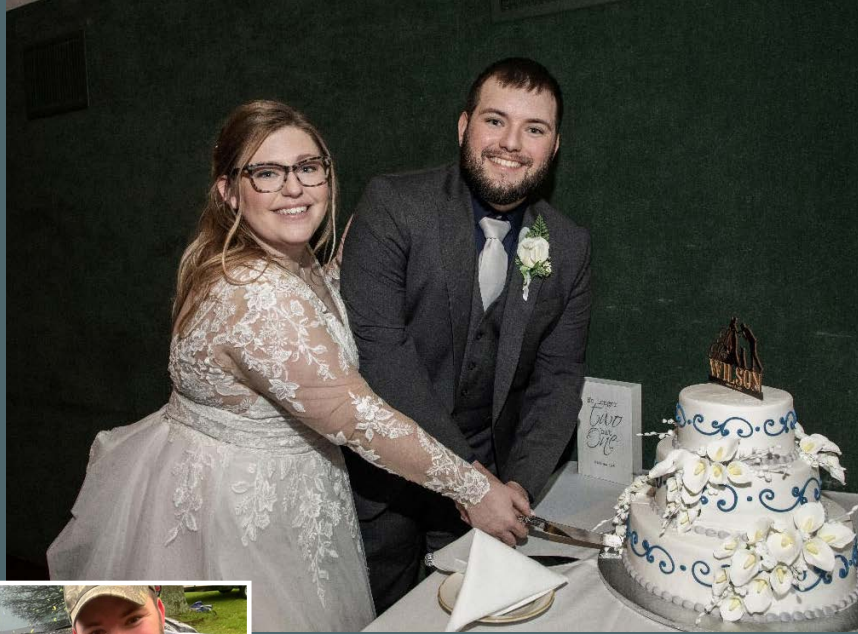

We live in a small, rural town that promotes a strong faith and a very home-oriented atmosphere. Lindsey works in the school district we live in, and we believe this school would provide a very student-focused education. We have two dogs at home that are spoiled rotten. Scout is a two-year-old German shepherd, and Ranger is a six-year-old border collie. They both absolutely love being around people and our sweet nephews. They are very good at letting us know whenever a car pulls into our driveway. We have a greenhouse and a beautiful garden that allows us to grow fresh fruit and vegetables year round.

## *what led us to adoption*

Adoption is something we have wanted to take part in for our entire marriage. We both could not have asked for better childhoods and would love to be able to share our love with someone else. We have been struggling with infertility and feel this could not be a better time to pursue the process of adoption. Through prayers, we feel God has guided us toward this path with strength and patience.

# + traditions

We have a very involved and close-knit family. Lindsey has two sisters and a brother-in-law who already adore our pets, so we can only imagine how much they will love our children. With Lindsey's family, we have a variety of traditions. Throughout the fall and winter months, we go apple picking, pick out a Christmas tree, and love going out to eat. Lindsey's grandparents are incredibly involved and have created endless traditions and memories for us to continue.

Keegan has a brother and sister-in-law who have two sons. We have started a weekly homemade pizza tradition that usually results in pizza sauce and shredded cheese everywhere. There is an amusement park about two hours from our home that we visit fairly often. Once Christmas rolls around, we head out there to see Christmas lights together and write our letters to Santa. There is also a reindeer farm that we visit annually together. Our farm allows us to go fishing regularly through the summer, so that has been another tradition we have started now that our oldest nephew has turned two.

*dear*  
**expectant  
mother**

**To a loving mother,**

We cannot put into words how grateful we are for you. Your courage and strength through this entire process is so admirable, and we appreciate you for considering us as the family for your little one. If given the opportunity, we will love your little one deeply and take such great care of them. We will ensure that you will be a continued part of our life story.

We promise to encourage a love for God, an optimistic mindset, and a strong sense of family. We look forward to family meals at the kitchen table, adventures at the farm, building forts in the living room, and making endless memories. We give our full commitment to loving this child and supporting them with a safe and nurturing household. We have a very involved extended family that is so excited to take part in this process.

We both have been very fortunate to have had wonderful childhoods. We have very fond memories with our families that we would love to pass down to future generations. We can't wait to develop bonds through baseball, fishing, and just spending time outdoors. While this is a very scary and uncertain time, we hope we can provide you with confidence and faith through this process.

**Warmly,**

*Lindsey and Keegan*
