ABOUT US

We have been happily married for four years and together for nine. We love exploring together, going on cruises and enjoying food tours and social events. When we are not out exploring, we enjoy each other's company at home watching movies with our dog or doing home projects. From the first day we met each other, we knew this relationship was going to last a lifetime. We both work in the healthcare field; Wendy works as an RN, and Matthew is a patient care technician. We both complement each other very well and want to enjoy life to the fullest. We always think of each other's best interest and find ways to navigate through difficult times. Our love and respect for one another makes our relationship stronger.

OUR HOME AND PETS

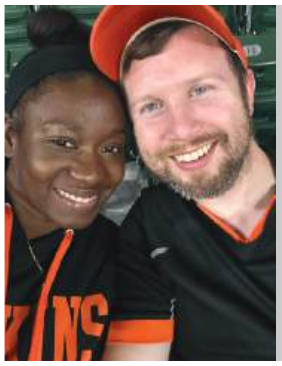

We live in a beautiful five-bedroom, 2 ½-bathroom home with a huge backyard. Our neighborhood is family oriented and very peaceful. We have a small dog who is very active and loves to play. In our neighborhood, there are activities such as a pumpkin patch, mini concerts, and festivals. Wendy was born in NYC and grew up in Maryland. Matthew was born and raised in Maryland. Although we come from different backgrounds, we both have a lot in common and learn from our cultural experiences.

WHAT LED US TO ADOPTION

We are happy for and blessed by this opportunity to adopt. We both struggle with infertility and tried for a few years with no success. After discussing our options, we finally decided to adopt because we felt this would be a beautiful journey not only for us but for the child as well. We knew this decision would change our lives for the best because we will be able to share our love and home with a baby.

Musical Group: Alicia Keys

Movie: *West Side Story*

Dream Vacation: Japan

TV Show: *The Office, Seinfeld, Martin*

Subject in School: Math

our families AND TRADITIONS

Our families have played an integral part in our relationship by showing love and respect for one another. Wendy's family lives in New York, Canada, and Florida. She has five siblings and a lot of cousins living in Florida. Wendy has a Christmas morning tradition cooking Caribbean recipes. The best parts of her family are the instant love when they see each other and the constant laughter.

Matt has two siblings; his family lives in South Carolina (near the beach) and Virginia. We meet up once a year for a family vacation. When we are not able to meet up, we always find the time to stay connected, either talking or texting. We get excited for the Christmas holiday because we love decorating the home and playing Christmas music, which is a tradition we would love to start with our new family. We can't wait to build new traditions and pass them down.

dear expectant mother

We want you to know how incredibly strong and brave you are. This decision you are considering would give us the opportunity to raise a child, and that is a true blessing. We understand the process is difficult, but we will do everything in our power to give your baby the best life.

This experience has opened our eyes to how beautiful love is and made our hearts fuller. Should you choose us, your child will live a happy and fulfilling life. We will instill our family values and the importance of humility. The fear of the unknown could be stressful, but we believe God always has a plan and that provides us with comfort. We want you to know that even though we are complete strangers, we care about and honor you.

We are grateful and humble for this experience and would never take this opportunity for granted. Your baby will be raised in a home full of love and happiness. Our entire family will love this baby because it takes a village to raise a child. We will make sure our home is safe and protected. We will provide a nurturing environment and share our joy of spending quality time together.
